Results *Software Engineering, Artificial Intelligence, Networking and Parallel/Distributed Computing* Roger
Lee,2022-11-18 This book presents scientific results of the 23rd ACIS International Summer Virtual Conference on Software
Engineering Artificial Intelligence Networking and Parallel Distributed Computing SNPD2022 Summer which was held on
July 4 6 2022 at Kyoto City Japan The aim of this conference was to bring together researchers and scientists businessmen
and entrepreneurs teachers engineers computer users and students to discuss the numerous fields of computer science and
to share their experiences and exchange new ideas and information in a meaningful way Research results about all aspects
theory applications and tools of computer and information science and to discuss the practical challenges encountered along
the way and the solutions adopted to solve them The conference organizers selected the best papers from those papers
accepted for presentation at the workshop The papers were chosen based on review scores submitted by members of the
program committee and underwent further rigorous rounds of review From this second round of review 15 of most promising
papers are then published in this Springer SCI book and not the conference proceedings We impatiently await the important
contributions that we know these authors will bring to the field of computer and information science **Young Creators**
Alex R. D. Morgan,2026-03-11 Your imagination Your rules Your game You have spent hours playing Roblox You know what
makes a great game what keeps you coming back what makes you call your friends over what makes a round feel legendary
Now it is time to stop playing other people s games and start building your own Young Creators is the complete guide to
building two full Roblox games from scratch a Tycoon and a Hide and Seek experience written for players aged 10 to 16 who
are ready to become developers No prior coding experience required No boring theory Just real projects real scripts and real
games you can publish and share before you finish the book What you will build A complete Tycoon design a dropper and
collector economy script a four tier upgrade system save player progress with DataStores and build a world that visually
transforms with every upgrade purchased Your empire grows every time a player comes back A complete Hide and Seek
game build a five zone map with twenty or more hiding spots script a full round system with automatic Seeker and Hider
assignment add NPCs that populate the world between rounds and design a multiplayer experience that creates moments
players will talk about long after the round ends What you will learn By the time you publish both games you will understand

economy design and progression loops multiplayer architecture and round systems DataStore saves and persistent player data NPC building and Humanoid scripting GUI design and RemoteEvent communication audio design and game feel and how to read real analytics to make both games better These are not Tycoon skills or Hide and Seek skills They are game development skills and they belong to you forever Why two games Because the fastest way to become a real developer is not to build one game deeply It is to build two games that are as different from each other as possible and discover that the same skills scripting designing playtesting publishing produce completely different results depending on what you are trying to make The Tycoon teaches you how to keep one player coming back Hide and Seek teaches you how to make a group of players create stories together Both lessons matter Neither can replace the other What makes this book different Most game development books teach you tools This book teaches you thinking Every system is explained not just as code to copy but as a design decision to understand why the upgrade is priced this way why the hiding phase freezes the Seeker why the analytics number means what it means Understanding the why turns a developer who can follow instructions into a developer who can build anything The book is project driven from the first chapter to the last You are never learning a concept in isolation you are always learning it because you need it right now to build the thing in front of you Theory arrives at the moment it becomes useful Not before By the end of this book you will have Two complete published Roblox games on your profile Real player analytics from two different game genres A design journal full of decisions reflections and plans for your next project The scripting vocabulary to read write and debug Luau with confidence A clear understanding of what you want to build next and exactly why Young Creators is Book Two of the Roblox Game Dev Build Launch Grow series by Alex R D Morgan Book One Build Your First Roblox Game walks complete beginners through building and publishing their first Obby Book Three Level Up introduces RPG design Simulator architecture advanced DataStore patterns and monetisation for developers ready to go further You do not need to have read Book One to start here If you have played Roblox and you are ready to build something real this is your book For ages 10 and up Roblox Studio required free All projects build toward two published games Also in this series Build Your First Roblox Game Book One Level Up Book Three coming soon Studio Pro Book Four coming soon
