

The background of the cover features a string art project. It consists of a grid of vertical metal nails of varying heights, with purple string woven between them to create a complex, geometric pattern of overlapping lines and shapes. The string is a vibrant purple color, and the nails are a dark grey or black. The overall effect is a textured, three-dimensional grid.

Sociology Intro African Text:

Sociology Theophilus Olatunde Odetola, Ade Ademola, 1987 **Sociology** Theophilus Olatunde Odetola, Adenekan Ademola, 1985 *African Cultural Personalities in a World of Change* Ikechukwu Anthony Kanu, Ejikemeuwa J. O. Ndubisi, Kanayo Nwadiakor, 2018-08-16 This notwithstanding over the years the African culture in all its manifestations became the bulls eye for attack especially during the Atlantic Slave Trade Colonialism Racism During these periods Europe dealt coup de grace to the African personality to his is ness by destroying the African cultural values They disrespected African peculiarities languages enriched with traditions of centuries parables many of them the quintessence of family and national histories modes of thought influenced more or less by local circumstances local poetry which reveals the profundity of African literary wizardry A lot of these were altered against the background that the African in all his susceptibilities is an inferior race and that it is needful to give him a foreign model beacon to emulate and follow In our time of globalization bringing about a new sweep of changes on the African cultural values a more careful historically grounded interpretation of the cultural changes occurring on the continent is therefore needed and for it to be useful it should enable us to transcend the narrow and narrowing parameters that currently dominate the discourse on the processes and structures of change occurring in contemporary Africa This piece is a great accomplishment by African scholars to do a grounded hermeneutics of the structures of changes taking place in Africa The different chapters are the fruits of the 2018 International Conference of the Association for the Promotion of African Studies APAS The authors like artists combine originality with insightful imagination They have carefully treated the historical conceptual basic and substantive issues in cultural change in Africa Their coherent systematic and encyclopedic approaches have the capacity to expand the intellectual and professional horizon of its readers **Social Problems in Africa** Apollo Rwomire, 2001-07-30 Despite the recent growth of research on social problems facing the people of sub Saharan Africa there remains a critical lack of conceptual epistemological and empirical research and documentation This sophisticated new book attempts to fill that gap by synthesizing interpreting and extending the existing literature on conditions that constitute serious impediments to socio economic development in Africa It provides an original and up to date survey of key problems ranging from poverty and inequality to violence and crime The contributors all of whom have lived or worked in Africa show how social problems emerge how they are defined and how various actors attempt to deal with them This timely book provides a much needed analysis of the major issues and debates regarding the dynamics of social problems in the African context Social Problems in Africa is broken into four parts The first introduces readers to the nature of social problems in general and provides a framework for analyzing and understanding social problems in an African context Part II on culture human rights and democracy examines these crucial aspects of social problems in Africa as well as issues such as language and colonialism Part III focuses on poverty and inequality while conflict and violence is the focus of Part IV Together the chapters in this volume provide the most comprehensive and systematic

approach to the issues available bringing much needed attention to the problems in Africa from the perspective of scholars who have lived and worked there **Minorities and the State in Africa** , *African Traditional Religion and Philosophy: Ikechukwu Anthony Kanu*,2022-07-14 The work has the capacity to stimulate interest for further critical reflection in the area of African Traditional Religion and philosophy I therefore very strongly recommend it for all who treasure good African literature and most especially for anyone who wishes to be abreast with important debates and developments in African Traditional Religion and philosophy Experts researchers beginners and casual readers are bound to treasure the usefulness of this interesting book Encyclopedia of African American History, 1896 to the Present Paul Finkelman,2009 Alphabetically arranged entries from A to C that explores significant events major persons organizations and political and social movements in African American history from 1896 to the twenty first century *The Essentials of African Studies* Sophie B.
