Storytelling Ballads:

Storytelling Josepha Sherman, 2008 A collection of informative entries providing a definitive and fascinating study of the wide world of storytelling

Storylines J. Edward Chamberlin, 2023-05-13 J Edward Chamberlin draws together anecdotes and insights from a celebrated career in this timely exploration of the power of stories and songs from both the distant past and today's news countering despair and disillusionment with hope and possibility Stories are our first and last survival strategy for millions of years more or less they told humanity what we know and what we don't know what to wonder about and what to watch out for These days many of us feel that we need all the help we can get for survival sometimes seems like a long shot The great myths of the world bring us comfort by assuring us that however bad things are they have all happened before and will one day pass and however good they will not last forever Storytelling whether of religion the arts or even science can be an important form of resistance offering an alternative to the overpowering pressures of everyday enabling our imaginations This may offer an escape from reality which has an appeal to all of us some of the time But they can be a hazard The environment is destroyed because of storylines about growth and development Cultures embrace hallucinations of civilized progress as we slip into a dangerously uncivil social and economic free for all And some claim homes for themselves and drive out others on the basis of self-serving histories about modern constitutions More than that we are disconnected from each other by our commitment to the stories and songs that promote these illusions and make us numb to the value of difference and defiance But it is also within storytelling that we can find a way to bring sympathy and judgement back into the centre of our conversations about what we can and what we must do Stories and songs ours and those of others can help us They can save us

Studies in Ephemera Kevin Murphy, Sally O'Driscoll, 2013-01-30 Studies in Ephemera Text and Image in Eighteenth Century Print bring together established and emerging scholars of early modern print culture to explore the dynamic relationships between words and illustrations in a wide variety of popular cheap print from the seventeenth to the early nineteenth century While ephemera was ubiquitous in the period it is scarcely visible to us now because only a handful of the thousands of examples once in existence have been preserved Nonetheless single sheet printed works as well as pamphlets and chapbooks constituted a central part of visual and literary culture and were eagerly consumed by rich and poor alike in Great Britain North America and on the Continent Displayed in homes posted in taverns

and other public spaces or visible in shop windows on city streets ephemeral works used sensational means to address themes of great topicality The English broadside ballad of central concern in this volume grew out of oral culture the genre addressed issues of nationality history gender and sexuality economics and more Richly illustrated and well researched Studies in Ephemera offers interdisciplinary perspectives into how ephemeral works reached their audiences through visual and textual means It also includes essays that describe how collections of ephemera are categorized in digital and conventional archives and how our understanding of these works is shaped by their organization into collections This timely and fascinating book will appeal to archivists and students and scholars in many fields including art history comparative literature social and economic history and English literature Contributors Georgia Barnhill Theodore Barrow Tara Burk Adam Fox Alexandra Franklin Patricia Fumerton Paula McDowell Kevin D Murphy Sally O Driscoll Ruth Perry
