Strangers Meeting:

The Comfort of Strangers Gage McWeeny, 2016-01-04 In most accounts literature of the nineteenth century compulsively tells the story of the individual and interiority But amidst the newly dense social landscapes of modernity with London as the first city of one million inhabitants this literature also sought to represent those unknown and unmet strangers Focusing on the ways that both Victorian literature and modern social thought responded to an emergent society of strangers The Comfort of Strangers argues for a new relation between literary form and the socially dense environments of modernity insisting upon strangers in these works not as alienating fearsome others but a relatively banal yet transformative fact of everyday life the dark matter of the nineteenth century social universe Taking up the literature of social density Gage McWeeny engages with a range of generically diverse works from the age of Victorian sympathy to illuminate surprising investments in ephemeral relations anonymity and social distance Life amidst strangers on urban streets and markets produced new social experiences both alluring and fearsome and McWeeny shows how realist literary form is remade by the relational possibilities offered by the impersonal intimacy of life among those unknown and the power of weak social ties Reading works by Charles Dickens Matthew Arnold George Eliot Oscar Wilde and Henry James he discovers a species of Victorian sociality not imagined under J S Mill s description in On Liberty of society as a crowd impinging upon the individual Instead McWeeny mines nineteenth century literature s sociological imagination to reveal a set of works diverted by and into intensities located in strangers and the modern forms of sociality they emblemize Treating seriously the preference for the many over the few the impersonal intimacy of strangers over those who are friends and acquaintances The Comfort of Strangers shows how literature and sociology together produced modern understandings of the social opening up canonical works of the nineteenth century to a host of strange new meanings

Liquid Modernity Zygmunt Bauman, 2013-07-10 In this new book Bauman examines how we have moved away from a heavy and solid hardware focused modernity to a light and liquid software based modernity This passage he argues has brought profound change to all aspects of the human condition The new remoteness and unreachability of global systemic structure coupled with the unstructured and under defined fluid state of the immediate setting of life politics and human togetherness call for the rethinking of the concepts and cognitive frames used to narrate human individual experience and their joint history This book is dedicated to this task Bauman selects five of the basic concepts which have served to make sense of shared human life emancipation individuality time space work and community and traces their successive incarnations and changes of meaning Liquid Modernity concludes the analysis undertaken in Bauman s two previous books Globalization The Human Consequences and In Search of Politics Together these volumes form a brilliant analysis of the changing conditions of social and political life by one of the most original thinkers writing today
