Strategic Air Defense:

History of Strategic Air and Ballistic Missile Defense: 1945-1955 ,2009 From the book s Foreword In the early 1970s the U S Army Center of Military History contracted with BDM Corporation for a history of U S efforts to counter Soviet air and missile threats during the Cold War The resulting two volume History of Strategic Air and Ballistic Missile Defense covers the years 1945 1972 when the strategic arms competition between the United States and the Soviet Union was at its height The study was first published for limited distribution in 1975 and recently declassified with minimal redaction These volumes address the passive and active defense strategies technologies and techniques adopted by both U S and Soviet defense planners Much of their actions centered around three common questions How might we be attacked How shall we defend our country What can technology do to solve the basic problems of defending against this new intercontinental threat

History of Strategic Air and Ballistic Missile Defense: 1956-1972 ,2009 From the book s Foreword In the early 1970s the U S Army Center of Military History contracted with BDM Corporation for a history of U S efforts to counter Soviet air and missile threats during the Cold War The resulting two volume History of Strategic Air and Ballistic Missile Defense covers the years 1945 1972 when the strategic arms competition between the United States and the Soviet Union was at its height The study was first published for limited distribution in 1975 and recently declassified with minimal redaction These volumes address the passive and active defense strategies technologies and techniques adopted by both U S and Soviet defense planners Much of their actions centered around three common questions How might we be attacked How shall we defend our country What can technology do to solve the basic problems of defending against this new intercontinental threat

History of Strategic and Ballistic Missile Defense: Volume I Barry Leonard,2010-11 As part of a larger study of the strategic arms competition which developed after World War II between the U S and the U S S R this study of the two countries strategies for air and ballistic missile defense addresses two broad subjects 1 How did each country approach the problem of defense against the threat from the air 2 Why did each country accent particular elements of an air defense strategy at various periods between 1945 and 1972 The first question concerns the means that leaders chose for defense against an increasingly sophisticated offensive threat Includes several appendices of chronologies tables charts maps and notes

Inventory of Automatic Data Processing Equipment in the United States Government ,1961 *History of Strategic Air and Ballistic Missile Defense* United States Army,2015-01-22 In 1975 U S Army Center of Military History commissioned a report on the History of Strategic Air and Ballistic Missile Defense Volume I 1945 1955 and Volume II 1956 1972 which was part of a larger study of the strategic arms competition that developed between the United States and the Soviet Union after World War II The report addresses each country s approach to civil defense against the threat from the air and each country s emphasis on specific elements of air defense strategy at various

periods between 1945 and 1972 Two central questions concerned the U S and Soviet defense planners How might we be attacked and How shall we defend our country Overall technological changes were the predominant factor affecting air and missile defense strategy during the period primarily as they related to the developing offensive threat The scope and pace of technological innovations introduced a measure of uncertainty placed considerable strain on the stability of the U S Soviet relationship and raised fundamental challenges to previous concepts of how best to defend the United States U S strategy was built on the variety of new weapon system developments while Soviet defense trends demonstrated Soviet awareness and responded to developments in U S strategic offensive forces The basic patterns of action were set by initial and early strategic choices Thereafter the strategic problem centered on technological development Threat perceptions increasingly involved possible application of new technologies by the Soviets in order to define or delimit future threats Perceptions of future threats were influenced by the view of available technologies whether or not the Soviets had demonstrated the capacity to apply them Available or known technologies were extrapolated to assess future threats However a direct action reaction cycle was not seen as a factor in the development of U S and Soviet strategic air and missile defense systems

Inventory of Automatic Data Processing Equipment in the Federal Government ,1961 **Inventory of Automatic Data Processing, ADP, Equipment in the Federal Government** ,1961 Fiscal Year 1974 Authorization for Military Procurement, research and Development, Construction Authorization for the Safeguard ABM, and Active Duty and Selected Reserve Strengths, Hearings Before ..., 93-1, March 28, 29; April 2, 10, 12, 13, 17, 26, 30; May 1, 1973 United States. Congress. Senate. Armed Services,1973 U.S. Air Services ,1950 **The Luftwaffe** James S. Corum,1997 This study provides an appraisal of Germany s air forces from the post World War I era through the early stages of World War II The author demolishes several myths surrounding the Luftwaffe including the belief that they had no ideas beyond the support of ground forces **Ideas, concepts, doctrine** Robert Frank Futrell,1980 **American Airpower Strategy in Korea, 1950-1953** Conrad C. Crane,2000 The Korean War was the first armed engagement for the newly formed U S Air Force but far from the type of conflict it expected or wanted to fight As the first air war of the nuclear age it posed a major challenge to the service to define and successfully carry out its mission by stretching the constraints of limited war while avoiding the excesses of total war Conrad Crane analyzes both the successes and failures of the air force in Korea offering a balanced treatment of how the air war in Korea actually unfolded He examines the Air Force s contention that it could play a decisive role in a non nuclear regional war but shows that the fledgling service was held to unrealistically high expectations based on airpower s performance in World War II despite being constrained by the limited nature of the Korean conflict Crane exposes the tensions and rivalries between services showing that emphasis on strategic bombing came at the expense of air support for ground troops and he tells how interactions between army and air force generals shaped the air force s mission and strategy He also addresses misunderstandings about plans to use nuclear biological and chemical weapons in

the war and includes new information from pilot correspondence about the informal policy of hot pursuit over the Yalu that existed at the end of the war The book considers not only the actual air effort in Korea but also its ramifications The air force doubled in size during the war and used that growth to secure its position in the defense establishment but it wagered its future on its ability to deliver nuclear weapons in a high intensity conflict a position that left it unprepared to fight the next limited war in Vietnam As America observes the fiftieth anniversary of its initial engagement in Korea Crane s book is an important reminder of the lessons learned there And as airpower continues to be a cornerstone of American defense this examination of its uses in Korea provides new insights about the air force s capabilities and limitations

Bernard Brodie and the Foundations of American Nuclear Strategy Barry Howard Steiner,1991 Steiner analyzes how and why Brodie s understanding of weapons of unparalleled explosive force led him to posit the need for revolutionary strategic thinking in broadminded analytic method and in the focus upon cities as nuclear targets He shows the tremendous effect Brodie s work had on the intellectual climate in which policy is determined particularly in his frequent combatting of conventional wisdom

Baucom,1992 Most people think Star Wars began with the ideas of Ronald Reagan but its roots reach decades further back In this first scholarly account of the origins of the Strategic Defense Initiative SDI historian Don Baucom traces these roots back to the dawn of the missile age in 1944 He finds SDI emerging after a period of nearly 40 years from forces generated by technological developments changing strategic conditions and the collapse of the SALT arms control negotiations of the 1970s *The Emerging Shield* Kenneth Schaffel,1991
