Structure and Dissolution in English Writing, 1910-1920 Stuart Sillars, 2016-07-27 This book explores key texts Howards End The Rainbow and the poetry of Owen Sassoon and Edward Thomas to show the mingled continuation and rejection of convention as their characteristic achievement exploring features often seen as failures It also discusses the writing s increasing concern with the inadequacies of language seeing it within the frame of contemporary society and deconstructive theory and attempting to locate them in relation to high Modernism

**Modernist Literature** Mary Ann Gillies, 2007-03-19 This engaging textbook provides a critical assessment of British modernist literature produced between 1900 and 1945 Each chapter focuses on a single decade a distinct genre and a specific theme the 1900s the short story gender and sexuality the 1910s poetry war technology and propaganda the 1920s the novel new modes of literary expression the 1930s the documentary political engagement A final chapter covers the 1940s and beyond looking at new literary and artistic movements and other modernisms Covering canonical texts and lesser known works Modernist Literature introduces students to current debates in Modernism and a range of literature in its historical and aesthetic contexts Features Examines four distinct genres the short story poetry novel and documentary decade by decade Combines close readings with cultural and political analyses of British modernism Includes a Chronology and Further Readings with each chapter

*The Lost Girls* Andrew Radford, 2007 The Lost Girls analyses a number of British writers between 1850 and 1930 for whom the myth of Demeter s loss and eventual recovery of her cherished daughter Kore Persephone swept off in violent and catastrophic captivity by Dis God of the Dead had both huge personal and aesthetic significance This book in addition to scrutinising canonical and less well known texts by male authors such as Thomas Hardy E M Forster and D H Lawrence also focuses on unjustly neglected women writers Mary Webb and Mary Butts who utilised occult tropes to relocate themselves culturally and especially in Butts s case to recover and restore a forgotten legacy the myth of matriarchal origins These novelists are placed in relation not only to one another but also to Victorian archaeologists and especially to Jane Ellen Harrison 1850 1928 one of the first women to distinguish herself in the history of British Classical scholarship and whose anthropological approach to the study of early Greek art and religion both influenced and became transformed by the literature Rather than offering a teleological argument that moves lock step through the decades The Lost Girls proposes chapters that detail specific engagements with Demeter Persephone through which to register distinct literary cultural shifts in uses of the myth and new insights into the work of particular writers

**The Poetry of Shell Shock** Daniel Hipp, 2005-07-28 The British poets Wilfred Owen Ivor Gurney and Siegfried Sassoon found themselves psychologically altered by what they experienced in the First World War Owen was hospitalized in April 1917 for shell shock in Scotland where he met Siegfried Sassoon in June of that year hospitalized for the same affliction Ivor Gurney found the war ironically to have been a place of relative stability within an otherwise tormented life When he was wounded during the war s final year his doctors observed signs of mental

illness which evolved into incapacitating psychosis by 1922 For each of these men all poets before the war poetry served as a way to inscribe continuity into their lives enabling them to retaliate against the war's propensity to render the lives of the participants discontinuous Poetry allowed them to return to the war through memory and imagination and poetry helped them to bring themselves back from psychological breakdown to a state of stability based upon a relationship to the war that their literary war enabled them to create and discover This work investigates the ways in which the poetry of war functioned as a means for these three men to express the inexpressible and to extract value out of the experience of war Bibliography and index are also included Instructors considering this book for use in a course may request an examination copy here

Edward Thomas Judy Kendall, 2012-02-15 Edward Thomas The Origins of his Poetry builds a new theoretical framework for critical work on imaginative composition through an investigation of Edward Thomas's composing processes on material from his letters his poems and his prose books It looks at his relation to the land and landscape and includes detailed and illuminating new readings of his poems It traces connections between Thomas's approach to composition and the writing and thought of Freud Woolf and William James and the influence of Japanese aesthetics and draws surprising and far reaching conclusions for the study of poetic composition **English Novel Explication** Peter L.
