The Early Reception of the Book of Isaiah Kristin De Troyer, Barbara Schmitz, 2018-12-17 This volume brings together a lively set of papers from the first session of the Deuterocanonical and Cognate Literature program unit of the Society of Biblical Literature Annual Meeting in 2016 Together with a few later contributions these essays explore a number of thematic and textual issues as they trace the reception history of the Book of Isaiah in Deuterocanonical and cognate literature

The Development of the High Priesthood during the pre-Hasmonean Period Maria Brutti, 2021-11-29 This book deals with the Jewish High Priesthood between 301 152 BCE The research was carried out as part of a doctoral thesis at the Pontifical Gregorian University It is of a historical biblical theological nature Historical in as much as it refers to a chronological period and to the historiographic sources biblical and theological because it questions a Biblical institution its meaning and its religious function The history of the High Priesthood is analysed on the basis of conflicting documents starting from the question of power and the autonomy of the high priests under the rule of the Ptolemies and the Seleucids However the historical reconstruction is strongly determined by the political ideology and theological vision of the available sources on this subject

The Torah in 1 Maccabees Francis Borchardt, 2014-08-22 This volume addresses two pivotal questions surrounding the composition of 1 Maccabees It sets out to discern the place and function of the torah within the community described by the book However before addressing the main problem the author must first determine the composition history of the text Given that the former orthodoxy of a unitary authorship seems to be breaking down and no consensus has taken its place a literary critical investigation occupies a necessary and lengthy portion of the work Once a recommendation for the book s composition history is reached attitudes toward the inherited Judean tradition are described in each of the strata discovered The resulting study reveals a wide variety of opinions on the Judean traditions and their function in society This contributes to the current trend in scholarship of the Hellenistic period questioning the dichotomy between Judaism and Hellenism by demonstrating the different attitudes within even one text

Phinehas, the Sons of Zadok, and Melchizedek Dongshin Don Chang, 2016-08-11 Dongshin Don Chang examines 1 and 2 Maccabees the Dead Sea Scrolls and Hebrews to see how the combined concepts of covenant and priesthood are defined and interlinked within various biblical and extra biblical traditions The three studies show the interesting and varying dynamics of the use of combined concepts of covenant and priesthood The articulations of the two entities are shown to reflect in part the concern

of the Second Temple Jewish authors how significant the priestly institutions and priesthood were not only in cultic matters but also in relation to political and authoritative concerns Chang's analysis makes clear that some of the Second Temple compositions have pursued ideas of the legitimacy of priestly identities by juxtaposing the concepts of covenant and priesthood from various traditions Interpretation and representation of certain traditions becomes a way in which some Second Temple Jews and some members of the early Jewish Christian communities developed their priestly covenantal identities It is with an understanding of this Chang argues that we can better understand these Second Temple texts

Women's Bible Commentary, Third Edition Carol A. Newsom, Sharon H. Ringe, Jacqueline E. Lapsley, 2012-09-28 The Women's Bible Commentary is a trusted classic resource for biblical scholarship written by some of the best feminist scholars in the field today This twentieth anniversary edition features brand new or thoroughly revised essays to reflect newer thinking in feminist interpretation and hermeneutics It comprises commentaries on every book of the Bible including the apocryphal books essays on the reception history of women in the Bible and essays on feminist critical method The contributors raise important questions and explore the implications of how women and other marginalized people are portrayed in biblical texts looking specifically at gender roles sexuality political power and family life while challenging long held assumptions This commentary brings modern critical methods to bear on the history sociology anthropology and literature of the relevant time periods to illuminate the context of these biblical portrayals and challenges readers to new understandings

The Bible, Its Structure and Purpose John Urquhart, 1904 *Jew-hatred in the Second Temple Period* Benedikt Josef Collinet, Frank Ueberschaer, 2025-06-30 The experience of violence and verbal harassment was and still is an oppressive reality for Jews This volume focusses on Jew hatred and how it was encountered in the Second Temple period It includes contributions on very different literature from the Hellenistic and Roman times from various proveniences from Jewish literature in Greek language e.g. Septuagint and Philo to the works of Greek and Roman authors Thus prejudices resentments and violence against Jews will be addressed and analyzed as well as how the Jewish community opposed it both pragmatically and intellectually The historically oriented contributions are complemented by an essay in which past and present experiences are related to each other

Ancient Texts for New Testament Studies Craig A. Evans, 2005 One of the daunting challenges facing the New Testament interpreter is achieving familiarity with the immense corpus of Greco-Roman Jewish and pagan primary source materials From the Paraphrase of Shem to Pesiqta Rabbati scholars and students alike must have a fundamental understanding of these documents content provenance and place in NT interpretation But achieving even an elementary facility with this literature often requires years of experience or a photographic memory Evans's dexterous survey a thoroughly revised and significantly expanded edition of his *Noncanonical Writings and New Testament Interpretation* amasses the requisite details of date language text translation and general bibliography Evans also evaluates the materials relevance for interpreting the NT The vast range of literature examined includes the Old Testament apocrypha

the Old Testament pseudepigrapha the Dead Sea Scrolls assorted ancient translations of the Old Testament and the Targum paraphrases Philo and Josephus the New Testament pseudepigrapha the early church fathers various gnostic writings and more the NT and a comparison of Jesus parables with those of the rabbis will further save the interpreter precious time
