

What Was the First Writing System?

Earliest Known Writing System

Ancient Mesopotamia was the first ancient civilization that developed the very first writing system. Also, the Ancient Egyptians, Chinese, and Mesoamericans also developed full writing systems as well.

- People of Sumer invented the first writing system back in 3,500 to 3,000 BC.
- Egyptians developed their writing system in 3,250 BC, which was similar to the ones that Sumerians developed.
- Chinese developed a fully operational writing system in 1,300 BC in the late Shang-dynasty.

Mesopotamian Writing System

Cuneiform was the first writing system developed in the Sumer region of Mesopotamia.

- In the next 600 years, the process of cuneiform writing stabilized, and many changes were made to this writing system.
- Mesopotamians used to have professional writers, called scribes or tablet writers.
- The decipherment of cuneiform script started in the 18th century.

Egyptian Writing System

After 3200 BC, Egyptians started engraving hieroglyphs on small ivory tablets. These tablets were used in graves at Abydos in the tomb of the ruler of Upper Egypt, the predynastic King Scorpion.

It's important to note that the very first form of ink writing is also found in Egypt. They used reed pens to write on papyrus, according to the History of Pencils.

Chinese Writing System

The earliest forms of Chinese writing were found about 310 miles away from modern-day Beijing, on a Yellow River's tributary. This area is now known as Anyang and it's the place where the late Shang dynasty kings founded their capital.

In 1899, Wang Yirong, a scholar and politician, examined some characters engraved on divination ritual Bone just to realize their significance. They show a fully developed and complex writing system, which the Chinese not only used for communication but also to record their daily life events.

Mesoamerican Writing System

Recent discoveries show that pre-colonial Mesoamericans used a writing system around 900 BC.

- The Open System was tied to the grammatical and sound structures of a particular language. Examples of the closed system can be found in the Maya civilization.
- Open system, on the other hand, wasn't tied to the grammatical and sound structures of any specific language as it was used as a means of recording text.
