Peter Prew

The Human Reality:

Human Reality--Who We Are and Why We Exist Anonymous,2009-11-01 Human beings have questioned their existence for as long as they have been able to ponder and reason In attempting to answer the questions of human existence some have become religious others atheist some spiritual others agnostic some scientific others philosophical Regardless of how the questions have been answered we have only been left with more questions or the concession that many things about our existence are just unknowable or beyond our ability to understand Because of the difficulty in continually pondering the conclusions of what seem to be unanswerable questions we have turned our attention to fantasy and science fiction genres of thought that allow us to escape the reality of own ignorance Finally a book has been written that solves this human dilemma It is the most powerful book ever composed on the subject matter It transcends fantasy and science fiction in its simple presentation of reality and leaves the reader with the most profound perspective of human existence available It has the potential of changing one s life even the whole world forever This book answers all of life s questions leaving none on which to speculate or remained confused It provides the most complete and comprehensive answers to human reality ever given Every piece of the puzzle needed to understand who we are and why we exist is included And the most compelling element is that it speaks to our common sense the very essence of our humanity If read with an open mind this book will unfold a whole new perspective of the world and its inhabitants and what their relationship is with the rest of the Universe With this new and much needed perspective we stand to gain a full understanding of ourselves We will no longer remain shackled with the chains of ignorance prejudice and inequality that have kept humankind in bondage and misery for thousands of years Armed with this knowledge we will be able to reshape our individual realities and together transform our world not just for ourselves but for all life upon earth

The Human Reality Valentin Matcas,2016-04-20 There is a difference between the material objective world and the actual human reality since the human reality is very vast formed of this physical objective world and much more Since there is a difference between the actual human reality and the current knowledge about the human reality while by altering the knowledge itself about the human reality it remains separated into the consensual human reality and the actual normal objective human reality While if you lack awareness of all these you end up exploited as a human being in a human world Because you cannot study the human reality without comprehending those controlling the knowledge about the human reality and how they do so forcefully consensually or through stereotypes set in place since Aristotle and long before since this is how they end up controlling you and the entire world Furthermore you cannot form an accurate model of the universe if you do not understand yourself if you do not understand exactly your needs driving you to perform this study if you do not understand your mind constituting your means of understanding the universe and if you do not understand Life altogether spanning the universe actively involved in its structure shape behavior and development At the same time understanding the world around is the key to understanding yourself your life and your meaning in life and in

the world closing this circle of knowledge Since this is why we consider the most relevant circumstances behind the famous studies of the world we find true ideas and how they influence the understanding of the world throughout time we seek to understand how and why people accept consensual scientific and ideological models of this world and how this influences their life interconnectivity and development while we discover systematically this entire world Furthermore we use this study of the human reality to test all significant knowledge and ideas including human reasoning past civilizations indoctrination Einstein astral planes of existence ideologies Renaissance the Brotherhood ideological control ages of Earth cosmogony social and mind control Giordano Bruno consensual interconnectivity Relativity human origins and development Copernicus the Consensual Matrix the Big Bang Theory dreams ancient wars stereotypes Galileo Galilei conscious reasoning Schrodinger his cat Creationism alternate realities and much more the entire human reality This book studies systematically the human reality focusing on accurate truth while discarding beliefs and errors of reasoning correlating with all relevant knowledge form physics religion spirituality society education history psychology and more If you want to learn more about everything surrounding you and everything that you really are this book is for you

The Human Reality Peter Prew,2006 Mankind's principle concern is to make the world as comfortable for itself as possible And having been dominated by nature for thousands of years we now degrade and dominate fellow men and nature in return The Human Reality details how we got into this terrible state This is an immensely ambitious eloquent book that offers a challenge to every thinking person It shows us who and what we really are where we have come from and why and where we are really going

Social Theory and Human Reality Pertti Alasuutari,2004-09-23 Drawing on a wide range of international examples scenarios this text examines key sociological concepts that we use to understand human behaviour such as norms rules meanings language discourse ritual personality identity construction
