## **The First Of Elections A First:**

*The Documentary History of the First Federal Elections, 1788-1790, Volume I* Merrill Jensen, 1976-06 This is the first volume of an ambitious project which when completed will offer to the historian of early America the first readily accessible account of the nation's first elections. Volume I documents the first federal elections in South Carolina, Pennsylvania, Massachusetts, and New Hampshire. This book also covers the Constitution, the Confederation Congress, and federal elections as well as the Confederation Congress and the First Federal Election Ordinance of September 13th, 1788. Included in the three-volume set are hundreds of documents which together illuminate the critical political events of the time and the men who forged them. The documents are both official ones (legislative journals, debates, and laws relating to the elections) and unofficial ones (including material from letters, diaries, newspapers, broadsides, and other sources). The subjects treated include the providing for the elections by the Confederation Congress, public and private commentary prior to the elections, and summaries of official and unofficial actions for each of the thirteen original states. The editors have provided biographical sketches of the candidates for election and sketches of the political events of the time in introductions, headnotes, and editorial notes in order to place the documents in their historical context. These documents, most of which have been available to scholars only under the most difficult of circumstances, provided the basis for a more complete understanding of the fundamental political acts required to implement the Constitution after its ratification: the election of Representatives, Senators, Electors, and a President—the men who would give shape and meaning to the government created by the Constitution. Scholars and students of early American history, politics, and law will refer to these volumes frequently in order to gain a fuller comprehension of the men, the events, and the temper of the times that led to the establishment of our early federal government.

**The First Book of Elections** Edmund Lindop, 1968 Describes the many facets of an election: the candidates, the national and local campaigns, the political parties, the voter, and other aspects. *Parliamentary Assembly Documents, Working papers 2000 ordinary session (First part), Volume II* Council of Europe, *The Documentary History of the First Federal Elections, 1788-1790* Merrill Jensen, Robert A. Becker, Gordon DenBoer, 1976 The Documentary History of the First Federal Elections in four volumes will bring together the relevant documents concerning these elections—source materials essential for all historians and researchers of eighteenth-century American history. This third volume covers the elections in New Jersey and New York. Contemporaries understood that the first federal Congress would flesh out the Constitution and that the first federal elections were therefore an important step in the continuing struggle to shape, influence, and control the central government. The elections also provided the states with an unusual opportunity to experiment with electoral forms. The Constitution and the Confederation Congress allowed the states wide latitude in choosing Senators and in framing their laws for the election of the first presidential Electors and Representatives. This latitude encouraged experimentation and a lively public discussion about the entire electoral process. The documents presented have been collected from a wide range of

sources state legislative journals records of debates compilations of state laws executive and judicial records and other official sources as well as from unofficial sources such as personal letters diaries newspapers pamphlets and broadsides The subjects include preelection public and private speculation about all aspects of the elections the official and unofficial actions of each of the states in establishing the mechanics of the elections for presidential Electors Representatives and Senators election results and contemporary commentary Biographical sketches of the principal candidates for office and maps of the electoral districts in each state are provided and the historical context of the documents is sketched in introductions and editorial notes Volume I edited by Merrill Jensen and Robert A Becker was published by the University of Wisconsin Press in 1976 It contains the documents concerning the first federal elections in South Carolina Pennsylvania Massachusetts and New Hampshire as well as the Confederation Congress s actions related to the Constitution and the elections Volume II published in 1984 covers the elections in Connecticut Delaware Maryland Virginia and Georgia Volume IV will cover the election of the president and vice president and the elections in North Carolina and Rhode Island
