Women in the History of Linguistics Wendy Ayres-Bennett, Helena Sanson, 2020 This volume offers a ground breaking investigation into women's contribution to the description analysis and codification of languages across a wide range of linguistic and cultural traditions The chapters explore a variety of spheres of activity from the production of dictionaries and grammars to language teaching methods and language policy *The Publishers Weekly*, 1930 Medieval Ireland (New Gill History of Ireland 1) Michael Richter, 2005-09-27 Medieval Ireland The Enduring Tradition the first instalment in the New Gill History of Ireland series offers an overview of Irish history from the coming of Christianity in the fifth century to the Reformation in the sixteenth concentrating on Ireland's cultural and social life and highlighting Irish society's inherent stability in an very unstable period Such a broad survey reveals features otherwise not easily detected For all the complexity of political developments Irish society remained basically stable and managed to withstand the onslaught of both the Vikings and the English The inherent strength of Ireland consisted in the cultural heritage from pre historic times which remained influential throughout the centuries discussed in Professor Michael Richter's engaging and informative book Irish history has traditionally been described either in isolation or in the manner in which it was influenced by outside forces especially by England This book strikes a different balance First the time span covered is longer than usual and more attention is paid to the early medieval centuries than to the later period Secondly less emphasis is placed in this book on the political or military history of Ireland than on general social and cultural aspects As a result a more mature interpretation of medieval Ireland emerges one in which social and cultural norms inherited from pre historic times are seen to survive right through the Middle Ages They gave Irish society a stability and inherent strength unparalleled in Europe Christianity came in as an additional enriching factor Medieval Ireland Table of Contents The Celts Part I Early Ireland before c AD 500 Ireland in Prehistoric Times Political Developments in Early Times Part II Ireland in the First Part of the Middle Ages c AD 500 1100 The Beginnings of Christianity in Ireland The Formation of the Early Irish Church Christian Ireland in the Seventh and Eighth Centuries Secularisation and Reform in the Eighth Centuries The Age of the Vikings Part III Ireland in the Second part of the Middle Ages c 1100 1500 Ireland under Foreign Influence The Twelfth Century Ireland from the Reign of John to the Statutes of Kilkenny The End of the Middle Ages The Enduring Tradition *School & Society* James McKeen Cattell, Will Carson Ryan, Raymond Walters, 1920 **Cambridge** Mildred Anna Rosalie Toker, 1907 **School & Society**, 1920 *An Introduction to World History* Edwin William Pahlow, 1938 *School and Society*, 1920 **The Cambridge Review**, 1886 **The Eugenics Review**, 1942 *The Cambridge Review*, 1988 Vols 1 26 include a supplement The University pulpit vols 1 26 no 1 661 which has separate pagination but is indexed in the main vol **Founding Gods, Inventing Nations** William F. McCants, 2012 From the dawn of writing in Sumer to the sunset of the Islamic empire Founding Gods Inventing Nations traces four thousand years of speculation on the origins of civilization Investigating a vast range of primary sources some of

which are translated here for the first time and focusing on the dynamic influence of the Greek Roman and Arab conquests of the Near East William McCants looks at the ways the conquerors and those they conquered reshaped their myths of civilization s origins in response to the social and political consequences of empire The Greek and Roman conquests brought with them a learned culture that competed with that of native elites The conquering Arabs in contrast had no learned culture which led to three hundred years of Muslim competition over the cultural orientation of Islam a contest reflected in the culture myths of that time What we know today as Islamic culture is the product of this contest whose protagonists drew heavily on the lore of non Arab and pagan antiquity McCants argues that authors in all three periods did not write about civilization s origins solely out of pure antiquarian interest they also sought to address the social and political tensions of the day The strategies they employed and the postcolonial dilemmas they confronted provide invaluable context for understanding how authors today use myth and history to locate themselves in the confusing aftermath of empire
