The Human Genius Project:

The Human Genius Project Gary Crenshaw, 2001 The Human Genius Project is a solution looking for a problem This ideology Human Genius is a testament to the accumulation of life s skills toward maturity of mind This maturity is more than ethical or moral Its base is geared towards intellectual emotional spiritual and psychological growth The Human Genius manual is an instructional guide for life s skills and the evolution of mind The Manuel is broken down into 3 parts PART I The first section will explain the mind set of man It will encompass what it takes to achieve your dreams and it will try to explain why some never achieve self fulfillment It will explain the role of the imagination and how the mind set provides a stumbling block in our lives The importance of self definition and the different personality types will be discussed The need for self responsibility and the need for faith will be expounded upon The affects of criticism will be explored The basic attitudes and impulses will be explained The reason why good and bad things take place and the positive and negative affects of the WILL shall be examined The Genius Project recognizes that a man s mind set sets the stage for the education and transition of the mind Within the mind set lies the understanding of the causes and effects of life This section will inspire and teach one to conquer Your mind set is the prelude to the future The future hinges on the perception and the belief system that is reinforced This belief system the perception reinforces and foreshadows why bad things take place one after another What lies within the shadows of bad things taking place is bad thinking and bad decision making from the past In order to correct this cyclic effect one must learn the lessons that life teaches The lessons that life teaches should lead to the identification and uncovering of the true innate ability of man This innate ability that lies dormant is the true genius of man It is this innate genius that The Human Genius Project was designed to release This genius is more than the mental processing of information but can be likened to a well defined talent That which lies innately could be the genius of song writing sports art mathematics etc etc This genius can be released by creating alternate personalities to free the innate being This process incorporates mentally changing your background and creating that which compliments the inner genius of the mind The key to this process is the imagination God used his imagination to lay the foundation of the universe You to must imitate the creator You must use your imagination to lay the foundation for your dreams This foundation that has its fortitude in the genius of ones imagination will lead to power It leads to power over oneself and power over others The imaginative energy will add life breath depth and dimensions to your ideas The persistent intentional and misdirected use of the imagination leads to mediocrity The thing that puts mediocrity in one s life is the persistent inadequacies of society that stagnate the inner genius If one takes time to remember his dreams as a kid what will be revealed are dreams that encompass greatness The transition from childhood to adult life deadens the inner voice that was awakened when you were but a child There was a shift in your mind set brought on by the imposed social political psychological and religious systems of this world structure Most of us have been manipulated into giving up our minds and WILLS to the systems and structures of society The Human

Genius Project wishes only to resurrect the Lazarus in you This resurrection must first start with self definition This is the cornerstone of your success and awakening Too many of us look for self definition as well as direction from exterior sources True self definition and true direction come only from within p *Embassy of Peace Manual - Programs & Projects* Jasmuheen,2009-02-10 Embassy of Peace Personal Global Universal Harmonization Programs Projects for the co creation of unity and permanent peace on earth This manual by metaphysical author researcher and Peace Ambassador Jasmuheen combines the Luscious Lifestyles Program with its 8 point lifestyle plan with the Madonna Frequency Planetary Peace Program and adds the Embassy s Universal Harmonization Program Designed to promote individual and global health and happiness these programs also promote permanent peace and prepare earth en mass to enter into higher paradigms Covering lifestyle practices world health and hunger issues plus extra terrestrial realities and more this manual also helps in the training of the Embassy s Ambassadors of Peace and Diplomats of Love Updated in 2010 **The Answer** Hugo D. Menendez,2016-04-14 This book by Mr Menendez is a complete departure from his previous books His prior works though written as fiction did in fact chronicle investigations that he had conducted both in the federal and private sectors These cases were successfully litigated in the federal court for the southern district of Florida Mr Menendez maintains his unique style of storytelling however this book is a completely fictional story The story line will keep the reader transfixed and guessing as to what the conclusion will be While reading the story the reader will constantly wonder what the answer is Dr Harold Steiner is an internationally recognized researcher who together with other renown researchers set out to answer the question which scientists have pondered through the years What is the reason why some individuals in rare occasions become a genius The question is why is a genius a genius Dr Steiner as the main researcher and project director for the Genius Project spent over ten years researching this question By accident as often occurs in science he makes a discovery and at first he does not understand the enormous implication of what he has discovered He came to realize his discovery could alter the balance of power in the world if improperly utilized If utilized with the intent of helping the human race it could help in curing many types of mental illnesses He and his fellow researchers preferred risking death rather than allowing this discovery to fall in the hands of the intelligence community of nations His final act was to place upon the shoulders of his son and daughter in law the responsibility for the future course of this discovery *Divine Inspirations* Steven Taga Mapepa,2019-01-19 Is a big fire not born out of just a small spark Small sparks have the potential to turn into huge flames of fire which have the dynamic ability to grow into an inferno that cannot be extinguished Such is the power inherent in the potential of the human spirit thoughts ideas gifts and talents Therefore do not consider your thoughts ideas gifts and talents insignificant to the ever growing and emerging needs of humanity Life is an ongoing research project It is an odyssey of seeking knowledge of the sacred secrets and mysteries of our divinity and humanity We are all involved in this collective and collaborative effort and venture of the enduring human spirit and enterprise of searching and researching for
