## The Master:

The Master's Tools Michael McCarthy, 2025-01-07 Finance serves the rich and powerful We need to democratize it Why is democracy so broken and how might it be fixed In *The Master's Tools* award winning author Michael A McCarthy argues the answer can be found in the flows of credit and investment bound up with finance capital Today finance guides and constrains our politics but there is no reason why this must be so In this groundbreaking work McCarthy develops a political and social theory of institutional transformation rooted in the interconnectedness of finance and democracy Inspired by ancient Athens where small groups chosen by lottery were used to ensure democratic participation he shows how democracy and working class power can be strengthened by introducing new forms of financial governance focusing on the inclusion of historically excluded groups His proposals for democratic financial institutions point the way to imbuing finance with a socio environmental purpose and the funding of a just green transition social housing and other necessary public goods And these financial institutions might be the first step toward a whole new kind of economy
