**Future of Tradition** Leon Shaskolsky Sheleff,2013-09-05 Recent years have seen an increased interest in the variety of cultures co existing within one state and a growing acknowledgement of the values ensconced in pluralistic social structures this book examines the manner in which indigenous people can function in modern states preserving their traditional customs while simultaneously adapting aspects of their culture to the challenges posed by modern life Whereas it was formerly assumed that these tribal frameworks were doomed to extinction and some states even encouraged such a process there has been a revival in their vitality linked to a recognition of their rights The book offers a comprehensive survey of various aspects of tribal life focusing on political issues such as the meaning of sovereignty legal issues dealing with the role of custom and social issues concerned with sustaining communal life A focused study is made of a whole series of legal factors relating to possession and ownership of land religious rites the nature of polygamous marriages the assertion of group rites the manner of peacefully resolving disputes and allied questions Recent judicial decisions are analysed as a reflection of the far reaching changes that have taken place in a process that has seen the former disregard of basic rights of indigenous people being replaced by an awareness of the injustices perpetrated in the past and a willingness to seek to redress them The comparison between approaches of different English speaking countries provides an account of interwoven developments **Themis** Jane Ellen Harrison,Gilbert Murray,Francis Macdonald Cornford,1927 [That the People Might Live](#)

[Live](#) Jace Weaver,1997-12-18 Loyalty to the community is the highest value in Native American cultures argues Jace Weaver In *That the People Might Live* he explores a wide range of Native American literature from 1768 to the present taking this sense of community as both a starting point and a lens Weaver considers some of the best known Native American writers such as Leslie Marmon Silko Gerald Vizenor and Vine Deloria as well as many others who are receiving critical attention here

for the first time He contends that the single thing that most defines these authors writings and makes them deserving of study as a literature separate from the national literature of the United States is their commitment to Native community and its survival He terms this commitment communitism a fusion of community and activism The Native American authors are engaged in an ongoing quest for community and write out of a passionate commitment to it They write literally that the People might live Drawing upon the best Native and non Native scholarship including the emerging postcolonial discourse as well as a close reading of the writings themselves Weaver adds his own provocative insights to help readers to a richer understanding of these too often neglected texts A scholar of religion he also sets this literature in the context of Native cultures and religious traditions and explores the tensions between these traditions and Christianity
