Existentialism: A Guide for the Perplexed Steven Earnshaw, 2006-11-07 Existentialism is often studied by students with little or no background in philosophy either as an introduction to the idea of studying philosophy or as part of a literary course Although it is often an attractive topic for students interested in thinking about questions of self or being it also requires them to study difficult thinkers and texts This Guide for the Perplexed begins with the question of What is Existentialism and then moves on to provide a brief analysis of the key thinkers writers and texts both philosophical and literary central to existentialism Chapters focus particularly on Kierkegaard Heidegger Sartre and Camus but also discuss

other philosophers and writers such as Nietzsche, Dostoevsky and Kafka. The second section of the Guide introduces key topics associated with existentialist thought: Self-Consciousness, the question of God, and Commitment. Each chapter explains the concepts and debates and provides guidance on reading and analysing the philosophical and literary texts addressed, focusing throughout on clarifying the areas students find most difficult.

Existentialism From Dostoevsky To Sartre Walter Kaufmann, 2016-03-28

What is Existentialism? It is perhaps the most misunderstood of modern philosophic positions, misunderstood by reason of its broad popularity and general unfamiliarity with its origins, representatives, and principles. Existential thinking does not originate with Jean-Paul Sartre. It has prior religious, literary, and philosophic origins. In its narrowest formulation, it is a metaphysical doctrine arguing as it does that any definition of man's essence must follow, not precede, an estimation of his existence. In Heidegger, it affords a view of Being in its totality; in Kierkegaard, an approach to that inwardness indispensable to authentic religious experience; for Dostoevsky, Kafka, and Rilke, the existential situation bears the stamp of modern man's alienation, uprootedness, and absurdity. To Sartre, it has vast ethical and political implications. Walter Kaufmann, author of *Nietzsche*, is eminently qualified to present and interpret the insights of existentialism as they occur and are deepened by the major thinkers who express them. In every case, complete selections or entire works have been employed.

The Wall: Existentialism and the complete chapter on Self-Deception from *L'Être et le Néant* by Sartre; two lectures from Jaspers' book *Reason and Existenz*; original translations of *On My Philosophy* by Jaspers and *The Way Back into the Ground of Metaphysics* by Heidegger. There is, as well, material from Dostoevsky, Kierkegaard, Nietzsche, Rilke, and Camus.

Radical Critiques of the Law Stephen M. Griffin, Robert C. L. Moffat, 1997

The past two decades have seen an outpouring of work in legal theory that is self-consciously critical of aspects of American law and the institutions of the liberal state. In this lively volume, eminent scholars in philosophy, law, and political science respond to this recent scholarship by exploring what constitutes a radical critique of the law, examining such theories as critical legal studies, feminist theory, and theories of difference and critical race theory. The authors consider whether the critiques advanced in recent legal theory can truly be called radical and what form a radical critique of American law should take. Writing at the cutting edge of the critique of critical legal theory, they offer insights first on critical legal scholarship, then on feminist political and legal theory. A third group of contributions questions the radicalness of these approaches in light of their failure to challenge fundamental aspects of liberalism, while a final section focuses on current issues of legal reform through critical views on criminal punishment, including observations on rape and hate speech. Each major essay describes the underlying principles in the development of a radical legal theory and addresses unresolved questions relating to it, while accompanying commentaries present conflicting views. The resulting dialogue explores wide-ranging issues like equity, value, relativism, adversarial and empathic legal advocacy, communitarianism, and the social contract, impartiality, and contingency, natural law, and corrective justice. A

common thread for many of the articles is a focus on the social dimension of society and law which finds the individualism of prevailing liberal theories too limiting Radical Critiques of the Law is particularly unique in presenting critical and feminist approaches in one volume along with skeptical commentary about just how radical some critiques really are Proposing alternative critiques that embody considerably greater promise of being truly radical it offers provocative reading for both philosophers and legal scholars by showing that many claims to radicalism are highly problematic at best The Journal of Philosophy ,1929 Covers topics in philosophy psychology and scientific methods Vols 31 include A Bibliography of philosophy 1933 **Mind** ,1914 A quarterly review of philosophy **Judgment as Belief** Thomas Albert Lewis,1910 *Philosophy and Psychology Pamphlets* ,1903 **What is Thought?, Or, The Problem of Philosophy by Way of a General Conclusion So Far** James Hutchison Stirling,1900
