## What Is History For:

*What is History For?* Beverley Southgate, 2006-06-01 An experienced author of history and theory presents this examination of the purpose of history at a time when recent debates have rendered the question what is history for of utmost importance Charting the development of historical studies and examining how history has been used this study is exceptional in its focus on the future of the subject as well as its past It is argued that history in the twenty first century must adopt a radical and morally therapeutic role instead of studying for its own sake Providing examples of his vision of history in post modernity Beverley Southgate focuses on the work of four major historians including up to date publications Robert A Rosenstone s study of Americans living in nineteenth century Japan Peter Novick s work on the Holocaust Sven Lindqvist s A History of Bombing Tzvetan Todorov s recently published work on the twentieth century This makes compulsive reading for all students of history cultural studies and the general reader as notions of historical truth and the reality of the past are questioned and it becomes vital to rethink history s function and renegotiate its uses for the postmodern age What Is History For? Arthur Alfaix Assis, 2014-01-01 A scholar of Hellenistic and Prussian history Droysen developed a historical theory that at the time was unprecedented in range and depth and which remains to the present day a valuable key for understanding history as both an idea and a professional practice Arthur Alfaix Assis interprets Droysen s theoretical project as an attempt to redefine the function of historiography within the context of a rising criticism of exemplar theories of history and focuses on Droysen s claim that the goal underlying historical writing and reading should be the development of the subjective capacity to think historically In addition Assis examines the connections and disconnections between Droysen s theory of historical thinking his practice of historical thought and his political activism Ultimately Assis not only shows how Droysen helped reinvent the relationship between historical knowledge and human agency but also traces some of the contradictions and limitations inherent to that project **What Is History For?** Robert Gildea, 2024-03-26 History suggests Robert Gildea is a battlefield Questions of power rights identity and nationhood always have an ancient and modern historical dimension and countries still go to war over their interpretation of history Yet accounts of history are just as prone to fabrication as fake news so how can we tell good history from bad How can history be critical learning from the past and righting wrongs rather than divisive such as riding roughshod over the rights of others In this passionately argued book Gildea suggests that the more people who really understand what good history entails the more likely history is to triumph over myth He sees positive signs in public history citizen historians and community projects among other developments And he debunks claims that you cannot rewrite history arguing that good history that s attuned to its times must be rewritten time and again *History for Ready Reference, from the Best Historians, Biographers, and Specialists* Josephus Nelson Larned, 1895 **Annual Report of the American Museum of Natural History for the Year** American Museum of Natural History, 1910 Includes list of members History, 1928 *What is History?* E. H. Carr, 2018-06-07 Not only one of

our most distinguished historians but also one of the most valuable contributors to historical theory Spectator In formulating an answer to the question of What is History Carr argues that the facts of history are simply those which historians have chosen to focus on All historical facts come to us as a result of interpretive choices by historians influenced by the standards of their age Now for the first time in Penguin Modern Classics with an introduction by Richard J Evans author of the Third Reich trilogy
