Shofield,2002 When a small kitten Cupcake is brought home her new owners Andy and Carol don t quite know what to make of her strange behavior Since Andy and Carol have never had a cat they didn t realize that all cats behave this way As it turns out there s more going on in the home than Andy and Carol can see Horrible germ creatures are lurking about trying to make people sick Only cats can see them and its Cupcake s job to make sure she keeps these creatures from getting her family sick The kitten attacks the germ creatures even though she is very afraid of them Another cat Thomas tries to help Cupcake find her courage Thomas also helps Cupcake understand her feelings about the new baby that has just arrived in the home Just as Cupcake is about to conquer her fear an evil germ creature has come into the home and it s after the new baby *What the Cat Knows* Brent R. Schofield,2002-07-15 When a small kitten Cupcake is brought home her new owners Andy and Carol don t quite know what to make of her strange behavior Since Andy and Carol have never had a cat they didn t realize that all cats behave this way As it turns out there s more going on in the home than Andy and Carol can see Horrible germ creatures are lurking about trying to make people sick Only cats can see them and its Cupcake s job to make sure she keeps these creatures from getting her family sick The kitten attacks the germ creatures even though she is very afraid of them Another cat Thomas tries to help Cupcake find her courage Thomas also helps Cupcake understand her feelings about the new baby that has just arrived in the home Just as Cupcake is about to conquer her fear an evil germ creature has come into the home and it s after the new baby *What Your Cat Knows* Bledar Lika, Your cat is watching you Learning your habits Adjusting to your moods Deciding quietly whether you are safe to live with What Your Cat Knows is a science based exploration of how cats think feel and navigate the human world often with far more awareness than we assume This book explains Why cats purr when they re stressed injured or dying How cats form emotional bonds without dependence Why certain people become chosen humans What feline behavior reveals about stress trust and safety How daily routines directly affect health and lifespan Why common training advice fails cats completely Written with clarity restraint and depth this is not a pet care checklist and not a sentimental celebration It is a lifelong guide to understanding cats as intelligent independent animals whose behavior follows rules just not human ones For new cat owners it provides a foundation that prevents years of confusion For experienced owners it explains what they ve always sensed but couldn t articulate Once you understand what your cat knows the relationship changes quietly permanently and for the better **What Your Cat Knows** Sally Morgan,2017 Can cats really sense when someone is about to die or when an earthquake is about to hit In terms of senses cats have the edge over humans They can hear sounds at greater distances and wider frequencies their noses are more sensitive they have better peripheral vision and their whiskers can pick up subtle changes in air pressure It is no surprise then that your cat will often skip to the door long before you notice that someone is coming What Your Cat Knows explores the fascinating world of feline cognition It

examines the five basic senses and presents a cat's eye view of the world helping you to understand and communicate with your own kitty and presents practical tests and activities that will help you gauge and even boost your cat's intelligence It also considers a question familiar to owners of the most intelligent cats Does your cat have a sixth sense from back cover
