**Sustainable Buildings and Infrastructure** Annie R. Pearce, Yong Han Ahn, Ltd HanmiGlobal Co, 2017-12-14 The second edition of Sustainable Buildings and Infrastructure continues to provide students with an introduction to the principles and practices of sustainability as they apply to the construction sector including both buildings and infrastructure systems As a textbook it is aimed at students taking courses in construction management and the built environment but it is also designed to be a useful reference for practitioners involved in implementing sustainability in their projects or firms Case studies best practices and highlights of cutting edge research are included throughout making the book both a core reference and a practical guide

**Advances in Civil Engineering and Building Materials** Shuenn-Yih Chang, Suad Khalid Al Bahar, Jingying Zhao, 2012-10-31 Advances in Civil Engineering and Building Materials presents the state of the art development in Structural Engineering Road Bridge Engineering Geotechnical Engineering Architecture Urban Planning Transportation Engineering Hydraulic Engineering Engineering Management Computational Mechanics Construction Technology Buildi

**Youth Entrepreneurship and Africa's Sustainable Industrialization** Farai Kapfudzaruwa, Masafumi Nagao, Emmanuel Mutisya, 2018-10-18 This book investigates the prospects of Africa s sustainable industrialization with an emphasis on youth entrepreneurship and the mechanisms in place to support both industrial and corporate entrepreneurs The volume addresses two specific issues first industrialization and youth entrepreneurship and secondly youth entrepreneurship training and education The emphasis on youth entrepreneurship to drive sustainable industrialization in Africa is driven by three points first Africa s industrialization is still at its inception with severely limited existing stock of entrepreneurial talents which makes it imperative to look to the continent s bulging youth population the population dividend for the needed supply of successive generations of entrepreneurs Secondly sustainable industrialization would have to be oriented to green ICT and inclusive growth which calls for a change in entrepreneurs attitudes Finally at the centre of the Africa Rising narrative is a budding new cheetah generation of young entrepreneurs who are highly educated professional and motivated by the need to set up new business models and practices to compete in the Fourth Industrial Revolution This volume forms part of an Education for Sustainable Development in Africa ESDA book series involving the United Nations University Institute for the Advanced Study of Sustainability and 8 partner African universities running Master s Programs in sustainable development The book series is

intended to serve primarily as undergraduate and graduate instruction materials for courses on sustainable development in Africa as well as policy input to key developmental issues in Africa [Toward Sustainable Communities](#) Mark Roseland, 2012-07-01 The single most useful resource out there on how to build and grow sustainable places The need to make our communities sustainable is more urgent than ever before [Toward Sustainable Communities](#) remains the single most useful resource for creating vibrant healthy equitable economically viable places This comprehensive update of the classic text presents a leading edge overview of sustainability in a new fully illustrated full color format Compelling new case studies and expanded treatment of sustainability in rural as well as urban settings are complemented by contributions from a range of experts around the world demonstrating how community capital can be leveraged to meet the needs of cities and towns for Energy efficiency waste reduction and recycling Water sewage transportation and housing Climate change and air quality Land use and urban planning Fully supported by a complete suite of online resources and tools [Toward Sustainable Communities](#) is packed with concrete innovative solutions to a host of municipal challenges Required reading for policymakers educators social enterprises and engaged citizens this living book will appeal to anyone concerned about community sustainability and a livable future Mark Roseland is director of the Centre for Sustainable Community Development at Simon Fraser University and professor at SFU's School of Resource and Environmental Management He lectures internationally advises communities and governments on sustainable development policy and planning and has been cited as one of British Columbia's top fifty living public intellectuals [Architecture and Urban Development](#) Zhen Hua Zhang, Yun Jiang Li, 2012-11-29 Selected papers from the 2012 Global Conference on Civil Structural and Environmental Engineering GCCSEE 2012 The 3rd International Symposium on Multi field Coupling Theory of Rock and Soil Media and Its Applications October 20 21 2012 Yichang China [Green Building Through Integrated Design \(GreenSource Books\)](#) Jerry Yudelson, 2008-10-31 Market architects engineers project managers general contractors cost estimators property and real estate managers facility managers property developers International appeal includes 25 project profiles from the US Canada United Kingdom Australia Spain China and India Thirty key players share their experiences and lessons learned from working on green building projects [Climate Change Governance in Chinese Cities](#) Qianqing Mai, Maria Francesch-Huidobro, 2014-11-27 In the last thirty years China has experienced rapid economic development and urbanisation which has resulted in high levels of environmental degradation and has put considerable pressure on the country's infrastructure and natural resources As China commits to considerably lower the carbon intensity of its economy this volume analyses and explains the governance of climate change mitigation responses in major Chinese cities The book focuses specifically on two highly carbon intensive sectors buildings and transport in Guangzhou Shenzhen and Hong Kong to explore how collaborative municipal networks function in practice in Chinese cities The authors find that effective coordination relies on the political will of local administrative elites the political significance attached to climate change issues the legitimate

authority granted to the coordinating agency and human and financial capitals Collaboration is hampered by limited span of network engagement inadequate authority of the primary network participants insufficient input and output legitimacy of the sectoral innovations and missing linkages across functionally segregated sectors The book concludes that the enhanced collaboration and coordination between networks that has emerged in the process of low carbon transitions is transforming the Chinese environmental state into a more pluralistic inclusive and legitimate one This book will be of interest to researchers and practitioners across disciplines including Chinese studies environmental politics and policy urban studies and planning and geography
