What We Owe to Nonhuman Animals Gary Steiner, 2023-09-27 This book strongly challenges the Western philosophical tradition's assertion that humans are superior to nonhuman animals. It makes a case for the full and direct moral status of nonhuman animals. The book provides the basis for a radical critique of the entire trajectory of animal studies over the past fifteen years. The key idea explored is that of felt kinship, a sense of shared fate with and obligations to all sentient life. It will help to inspire some deep rethinking on the part of leading exponents of animal studies. The book's strong outlook is expressed through an appeal for radical humility on the side of humans rather than a constant reference to the human-animal divide. Historical figures examined in depth include Aristotle, Seneca, and Kant; contemporary figures examined include Christine Korsgaard and Martha Nussbaum. This book presents an account according to which the tradition has not proceeded on the basis of impartial motivations at all but instead has made a set of pointedly self-serving assumptions about the proper criteria for assessing moral worth. Readers of this book will gain exposure to a wide variety of thinkers in the Western philosophical tradition, historical as well as contemporary. This book is suitable for professionals working in nonhuman animal studies, students, advanced undergraduates, and practitioners working in the fields of philosophy, environmental studies, law, literature, anthropology, and related fields.

Media Representations of Anti-Austerity Protests in the EU Tao Papaioannou, Suman Gupta, 2017-09-13 This book analyzes constructions of injustice, group identification, and participation in news and social media in anti-austerity protests within the European Union (EU). Since 2008, EU member states have witnessed waves of protests and demonstrations against the adoption of austerity measures and alignment of domestic economies with the prevailing global neoliberal order. Understanding how the media represents dissent and how it influences public deliberation is of critical importance. It is accordingly necessary to explore the strategies deployed and the role played by news and social media in representing and perhaps acting upon anti-austerity protests in the Eurozone crisis. This volume undertakes such a critical exploration.

Minorities and Populism - Critical Perspectives from South Asia and Europe Volker Kaul, Ananya Vajpeyi, 2020-02-28 This volume assembles renowned scholars to address for the first time the relationship between minorities and populism in South Asia and Europe from a critical perspective. Despite the very different and to some extent opposite historical and political trajectories, there is today a convergence on nationalist affirmation and on majoritarian politics between South Asia and Europe. In India, the Hindu majority rebels against wide-ranging minority rights anchored in the Constitution. In Europe, the refugee crisis and Islamic radicalization bring to the forefront the postcolonial legacy. Despite all rhetoric, there are obvious dangers of majoritarianism. Populist parties are divisive, partisan, disregard minority rights, engage in lynching, social division, stigmatization, and exclusion, turning minorities into second-class citizens. There is a profound structural connection between minorities and the current rise of populism in India and Europe. But there remains a

deep perplexity and also anxiety Does the presence of minorities necessarily have to trigger majoritarian policies Are there no solutions to this dilemma Many observers considered multicultural policies and affirmative action programs in India as a possible model for Europe to adopt in order to achieve greater integration But eventually they seem to have failed Why so Are multiculturalism and the recognition of differences still options today On the other hand most scholars in India typically reject the European model of liberal democracy and secularism as impracticable in India and locate the reason for the current malaise in the west But is liberal democracy really so bad in dealing with pluralism This volume collecting a selection of the Reset DOC Venice Padua Delhi dialogue series is going to answer two fundamental questions First what precisely is the nexus between minorities and populism in South Asia and Europe Starting from those case studies the authors will also draw some general theoretical inferences about the nature of populism Secondly given the dangers of populism for minorities the volume will look for the most adequate and feasible solutions *Richard Rorty* Michael Bacon,2008-01-01 Michael

Bacon gives a critical presentation of Rorty s writings on pragmatism and political theory comparing and contrasting him with pragmatists such as Hilary Putnam and Susan Haack and liberals such as John Rawls and Brian Barry The result is an imaginative presentation of one of contemporary philosophy s most innovative and important thinkers **The Adventures**

of Transcendental Philosophy Eduardo Mendieta,2002-07-23 Karl Otto Apel is one of the most important German philosophers of the 20th century and is finally coming to be recognized as such However his work is still poorly understood and inadequately treated throughout most of the world In *The Adventures of Transcendental Philosophy* critical theory scholar Eduardo Mendieta examines the philosophical origins of discourse ethics through the prism of Apel s thought Mendieta finds that Apel fundamentally transformed German philosophy which had become stagnant in the years before World War II and deeply influenced later thinkers such as JYrgen Habermas Apel s turn toward pragmatism and analytic philosophy helped him bring the concept of a linguistic paradigm shift to Germany *Reconstituting Social Criticism* Shane O'Neill,Iain MacKenzie,1999-07-17 In the context of a new global order where the logic of the market reigns virtually unopposed there is a clear need for original thinking that might reinvigorate a progressive political project This collection of essays brings together the work of a number of leading scholars who are concerned to construct a convincing basis for incisive criticism today These contributors represent the most vibrant and influential of contemporary critical perspectives egalitarian liberalism socialism poststructuralism psychoanalysis hermeneutics and critical theory
