Christopher Moore,2019-09 The book I present to you has the working title of A Stroke of Luck or a Beginner s Guide to Being Hospitalised as a More Mature Person and What You Can Reasonably Expect I believe that it represents a piece of innovative non fiction in that it is written with a positive yet realistic message about being a hospital virgin at a more mature age The project has been developed through my own experience of hospitalisation recently for treatment on a stroke The concept is conceived via passages of digressions examples of humour coupled with sharp intakes of inter active discussions based on the everyday activities of a hospital ward that the reader may not be aware of let alone expect It is in this respect that the book is unique whilst acknowledging that such institutions are full of medics and other professionals by definition there is also a whole spectrum of bit part players and events too which can have either a detrimental or positive impact on the patient s recovery Their role is examined through character development and astute observation of what actually occurs during a confinement Victor Meldrew can and does believe it he has too The story itself is chronological from pre admission admission the period of the stay when time becomes meaningless and thoughts begin to wander to level of absurdity never truly thought possible to discharge which in itself seems a nasty word to use along with release terms which come in for a wry comment or two and after care Primarily this book is written with the over fifties market in mind specifically but I would envisage it being an informative read to anyone who is new to the hospital game or is simply filled with trepidation at the possibility of it
