[The Fantasy of the Middle Ages](#) Larisa Grollemond, 2022-07-19 This abundantly illustrated book is an illuminating exploration of the impact of medieval imagery on three hundred years of visual culture From the soaring castles of *Sleeping Beauty* to the bloody battles of *Game of Thrones* from Middle earth in *The Lord of the Rings* to mythical beasts in *Dungeons Dragons* and from Medieval Times to the Renaissance Faire the Middle Ages have inspired artists playwrights filmmakers gamers and writers for centuries Indeed no other historical era has captured the imaginations of so many creators This volume aims to uncover the many reasons why the Middle Ages have proven so flexible and applicable to a variety of modern moments from the eighteenth through the twenty first century These medieval worlds are often the perfect ground for exploring contemporary cultural concerns and anxieties saying much more about the time and place in which they were created than they do about the actual conditions of the medieval period With over 140 color illustrations from sources ranging from thirteenth century illuminated manuscripts to contemporary films and video games and a preface by *Game of Thrones* costume designer Michele Clapton *The Fantasy of the Middle Ages* will surprise and delight both enthusiasts and scholars This title is published to accompany an exhibition at the J Paul Getty Museum at the Getty Center from June 21 September 11 2022
