The Floating City Mary Christine Wheatley, PhD, Azariah Logo, 2025-10-04 *The Floating City* *The Epic of the Drowned Ones* is a haunting and luminous novel about memory justice and the courage to rebuild a world after the waters rise In the wake of the Great Flood the old continents lie beneath the sea Survivors sail across an endless ocean guided by rumor and faith toward Aurea a mythic city said to float beyond the horizon holding the last archives of the drowned world Among the drifting communities is Leina a keeper of stories and soil carrying the red earth of her vanished island and the memory of all she has lost As Leina journeys

across the tides she encounters patrols guarding invisible borders islands of refuge and resistance and a fragile fellowship of the displaced those who remember what was and dream of what might be restored But the promise of Aurea conceals its own reckonings with power with forgetting and with the cost of belonging in a world rebuilt on the ruins of the past Blending poetic prose with visionary worldbuilding *The Floating City* traces the migrations of a people seeking not only shelter but meaning It asks timeless questions with urgent resonance What do we carry when everything else is washed away Who decides which histories survive And what does justice look like in a world that must begin again Through its tapestry of voices the storytellers the archivists the drowned and the dreamers this epic becomes both elegy and blueprint remembering the sacred bonds between land and people truth and witness love and repair At once intimate and sweeping this novel speaks to anyone who has ever searched for home in a time of loss *The Floating City* is a meditation on exile and belonging a requiem for the drowned and a call to remembrance for a planet on the edge In the end it is a story of what endures the voices we carry the stories we keep and the soil we refuse to let go

Neal, 2016-09-15 *Life in the Floating City* uses the songs of musician producer Thomas Dolby's 2011 studio album *Map of the Floating City* as a framework for the story of Anderson Brown, husband, friend, and attorney who lives on the Floating City, a place that serves as a pit stop on the edge of the Sombrero Galaxy for interstellar explorers, transport ships, and leisure travelers. Anderson and his wife Caroline, who is having an affair with Anderson's best friend Herbert, take an airship trip during which there is an accident and Caroline is lost. Upon his return to the Floating City, Anderson must face legal proceedings and questions, with suspicions that he did not do all he could to ensure Caroline's safety, particularly in light of her sizeable estate. Herbert does what he can to help Anderson move forward, which includes taking him to meet an eccentric pair of scientists who synthesize a hallucinogenic drug from a certain breed of frog. During the trip, Anderson meets Simone, who becomes the love of his life. However, all is not as it seems, and before long, Anderson loses everything and learns that those he thought he knew had much darker motives than he could ever imagine.

Floating City Anne Pierson Wiese, 2004-04 Anne Pierson Wiese's first collection of poems illuminates the everyday and the lessons to be learned amid life's routines. The poems in *Floating City* might be called poetry of place. Many are set in New York City, but they simultaneously inhabit a realm in which a mundane physical location or daily exchange can be seen to have human significance beyond the immediate. When one dismisses from one's mind the idea that going to the park, doing the laundry, buying a sandwich, and riding the subway are familiar experiences, one makes room for the actual to ally with the hypothetical by means of the emotions. The result Wiese eloquently shows is a form of truth that is silently generated whenever human beings earnestly endeavor to absorb the world.
