## **The Memory Wars:**

**The Memory Wars** Frederick C. Crews, 1997 This volume contains two essays by Frederick Crews attacking Freudian psychoanalysis and its aftermath in the so called recovered memory movement The first essay reviews a growing body of evidence indicating that Freud doctored his data and manipulated his colleagues in an effort to consolidate a cult life following that would neither defy nor upstage him The second essay challenges the scientific and therapeutic claims of the rapidly growing recovered memory movement maintaining that its social effects have been devastating

**Relational Remembering** Sue Campbell, 2003 Tracing the impact of the memory wars on science and culture Relational Remembering offers a vigorous philosophical challenge to the contemporary skepticism about memory that is their legacy Campbell s work provides a close conceptual analysis of the strategies used to challenge women s memories particularly those meant to provoke a general social alarm about suggestibility Sue Campbell argues that we cannot come to an adequate understanding of the nature and value of memory through a distorted view of rememberers The harmful stereotypes of women s passivity and instability that have repopulated discussions of abuse have led many theorists to regard the social dimensions of remembering only negatively as a threat or contaminant to memory integrity Such models of memory cannot help us grasp the nature of harms linked to oppression as these models imply that changed group understandings of the past are incompatible with the integrity of personal memory Campbell uses the false memory debates to defend a feminist reconceptualization of personal memory as relational social and subject to politics Memory is analyzed as a complex of cognitive abilities and social narrative activities where one s success or failure as a rememberer is both affected by one s social location and has profound ramifications for one s cultural status as a moral agent
