Groups and Group Rights Christine T. Sistare, Larry May, Leslie Francis, 2001 In matters such as affirmative action or home schooling rights of ethnic and other minority groups often come into conflict with those of society in a culturally diverse population such as ours But before considering the dilemmas posed by these issues we must first ask such basic but important questions as what group rights are and how they intersect with the principles of democracy This new collection brings together some of today's leading thinkers from the cutting edge of these debates taking in a broad range of issues confronting philosophers sociologists and political scientists Contributors such as Carl Wellman Carol Gould and Rex Martin examine the nature of groups and the conflict between group rights and democracy and also consider case studies depicting current issues in cultural ethnic and religious rights The first section on the nature of groups examines some of the perplexing alternatives in the formulation of a theory of group rights These articles investigate the kinds of rights minorities might claim and ask when groups can be held responsible for the acts of some of their members The second section addresses the treatment of groups in a democracy and the precarious balance between indifference toward minorities and capitulation to their demands Here the contributors examine five principles for the sensitive treatment of minority and disadvantaged groups in a democratic society A final section explores specific conflicts between subgroup and societal claims through case studies dealing with affirmative action religious practice and the education of children and the land rights of indigenous peoples By drawing on the legal and political dilemmas related to these cases the authors confront issues of core versus peripheral interests of individual member versus subgroup rights and of the possibilities for social openness raised in the preceding sections Written from varied perspectives Groups and Group Rights offers stimulating reading for both students and professionals as it takes on some of the most pressing dilemmas confronting our society

Ashton Black,1905 **A Conceptual Analysis and Evaluation for the Harrisburg International Airport as an Intermodal and Multimodal Facility** Rachel D. Tait,1997 A proposed rail stop on Amtrak s main line opposite the Harrisburg International Airport terminal has been under consideration for a number of years Intermodal transportation facilities are designed to accommodate various modes of transportation and to allow for the transfer of passengers and or cargo from one travel mode to another Modern intermodalism involves the systematic integrated use of two or more modes in order to maximize the efficiency of the total movement With the growing concerns over congestion and pollution air quality levels there is an increasing interest in providing these types of facilities Airports are a natural location for strong intermodal connections By their nature airports require passengers and freight to access facilities in a mode other than the airplane thus creating great opportunities for intermodal efficiencies The objectives of providing an intermodal rail facility in this area are to 1 provide an option of access and higher quality of service and flexibility to passengers 2 develop a rail terminal that is accessible to persons with disabilities 3 offer a more environmentally compatible and cost effective mode that may attract passengers who would otherwise travel by automobile 4 provide a means for reducing congestion on airport roadways and access routes 5 enhance the area s image as a modern city that may attract businesses and tourism and 6 improve safety The purpose of this paper is to incorporate these objectives while identifying a specific site location or alternate locations of the rail terminal preparing conceptual alternative designs providing cost estimates recommending a final design and discussing conceptual commercial opportunities i e possible hotel convention center which might arise as a result of a new rail station *The New Realism: Coöperative Studies in Philosophy* by Edwin B.
