woman's influence in music are to be drawn from the Hindoo mythology According to the tabular schedule of all knowledge found in the ancient Brahmin records music as an art belongs in the second chief division of lesser sciences but on its mathematical and philosophical side it is accorded a much higher position and is treated of in the oldest and most sacred Hindoo work the Veda This authority tells us that when Brahma had lain in the original egg some thousand billion years he split it by the force of his thought and made heaven and earth from the two fragments After this Manu brought into being ten great forces whence came all the gods goddesses good and evil spirits Among the lesser deities were the genii of music Gandharbas and those of the dance Apsarasas who furnished entertainment for the gods before man possessed the art
