Hayman Jr.,1997-11-01 What exactly is intelligence Is it social achievement Professional success Is it common sense Or the number on an IQ test Interweaving engaging narratives with dramatic case studies Robert L Hayman Jr has written a history of intelligence that will forever change the way we think about who is smart and who is not To give weight to his assertion that intelligence is not simply an inherent characteristic but rather one which reflects the interests and predispositions of those doing the measuring Hayman traces numerous campaigns to classify human intelligence His tour takes us through the early craniometric movement eugenics the development of the IQ Spearman's general intelligence and more recent works claiming a genetic basis for intelligence differences What Hayman uncovers is the maddening irony of intelligence that scientific efforts to reduce intelligence to a single ordinal quantity have persisted and at times captured our cultural imagination not because of their scientific legitimacy but because of their longstanding political appeal The belief in a natural intellectual order was pervasive in scientific and political thought both at the founding of the Republic and throughout its nineteenth century Reconstruction And while we are today formally committed to the notion of equality under the law our culture retains its central belief in the natural inequality of its members Consequently Hayman argues the promise of a genuine equality can be realized only when the mythology of intelligence is debunked only that is when we recognize the decisive role of culture in defining intelligence and creating intelligence differences Only culture can give meaning to the statement that one person or one group is smarter than another And only culture can provide our motivation for saying it With a keen wit and a sharp eye Hayman highlights the inescapable contradictions that arise in a society committed both to liberty and to equality and traces how the resulting tensions manifest themselves in the ways we conceive of identity community and merit **The Smart Set** ,1922 **Education Manitoba** ,1993 **The Smart Mamas' Guide to After-School Activities** Rosalyn Hoffman,2012-08-07 You want the best for your kids but resources are limited and you're overloaded with information From the moment your kids are born the kiddie perfecting complex is pushing you to buy buy
