Successful Parties:

Party Organization and Electoral Success of New Anti-establishment Parties Tomáš Cirhan,2023-08-14 This book examines the new anti establishment parties electorally succeeding at the expense of their established counterparts and argues that party organization matters for their electoral success It explores a relationship between these parties electoral success and their party organization Using a framework to explain the role of organizational features such as local party branches party membership and party elites in this process it reveals how they help parties to be more stable cohesive and legitimate a state that facilitates better conditions for electoral success It also shows that control over party organization is achieved partially by the existence of a corporate network associated with party leaders businesses This book will be of key interest to scholars and students of party politics and political parties anti establishment politics and Eastern European politics

The Success and Failure of Right-Wing Populist Parties in the Benelux Countries Léonie de Jonge,2021-06-14 This book focuses on the varied support for the populist radical right in the Benelux countries Belgium the Netherlands and Luxembourg Despite many common characteristics right wing populist parties have historically been more successful in the Netherlands and Flanders than in Luxembourg and Wallonia This book argues that the variation in the success of right wing populist parties depends to a large extent on the way in which they are perceived and received in a given polity In the Netherlands and Flanders mainstream parties and the media have contributed to politicising issues pertaining to immigration and national identity thereby tilling the field for the populist radical right In Luxembourg and Wallonia mainstream parties and the media have resolutely limited the opportunities for right wing populist challengers to influence the public debate This volume will be of interest to practitioners as well as students and scholars of party politics the media the populist radical right and the Benelux region

Public Finance and Post-Communist Party Development Janis Ikstens,2016-12-05 This key volume explores how party and campaign finance in post communist countries have influenced the development of the party system Based on an analysis of nine case studies the work examines how the implementation of public finance affects the pattern of party competition and the role of money in elections One of the lessons from the post communist experience is that no matter how well designed public finance systems are subject to constant revision as parties politicians and business elites exploit loopholes which can undermine the integrity of the entire system Party and campaign finance systems must therefore be considered in a larger discussion involving party regulation and electoral rules

How Political Parties Work Kay Lawson,1994-10-30 This important volume examines the inner dynamics of political parties with the intention of finding out how parties really work Specialists on Germany France New Zealand Norway Japan India Belgium Israel Poland Britain and the United States provide analyses of the ways in which power is developed and exercised in those countries who is trying to do what within the party and by means of the party and how successful they are Political parties are not monoliths as they have tended to be treated in party system research rather they have differentiated internal structures layers and

levels and on each of these the motivations and objectives of the participants may be very different By looking within these authors provide an understanding of the internal play of party power and why parties function as they do within the broader political arena
