Three Streams In Human Evolution:

Three Streams in Human Evolution Rudolf Steiner, 1985 **Three Streams in the Evolution of Mankind: the Connectin of the Luciferic-Ahrimanic Impulses with the Christ-Jahve Impulse** Rudolf Steiner, 1965 *Eternal and Transient Elements in Human Life* Rudolf Steiner, 2016-03-21

In what has been referred to as the most advanced course in anthroposophy Rudolf Steiner addresses one of the great questions of our time the role of evil in human development He speaks of the year 666 when three time streams intersected the familiar linear stream and two lateral streams and the reoccurrence of the 666 year rhythm in history At the heart of this mystery is the being Sorat the beast who attempted to flood humanity with premature spiritual knowledge by inspiring the scholars of the ancient Academy of Gondishapur Although responsible for the saving of Aristotle s works Steiner describes how the Academy generated tremendous but dangerous gnostic wisdom which eventually spread through the Christian monasteries and inspired Western scientific thought Its immediate negative impact however had to be counteracted by the Prophet Muhammad and the founding of Islam In contrast to the 666 year rhythm in history the 333 year rhythm is connected to the healing forces of the Mystery of Golgotha The year 333 was a central point in the post Atlantean age but also a pivotal moment in establishing the Christ Impulse and the new equilibrium it brought to humanity allowing people to gain wisdom through their own efforts Such wisdom enables insight into three key areas supersensible knowledge of birth and death understanding of an individual s life and the ability consciously to confront the adversarial beings of Lucifer and Ahriman Steiner addresses a host of additional themes including occult Freemasonry in Anglo American countries materialism in the Roman Catholic Church prophetic and apocalyptic vision dualism and fatalism in pre Christian times and the delusion of time and space Seeking to awaken his listeners to the urgency of the tasks ahead of them he urges that spiritual understanding be enlivened with enthusiasm fire and warmth of heart

The Spiritual Origins of Eastern Europe Sergei O. Prokofieff, 2016-03-21

And however paradoxical it may seem today the Grail mood is in the fullest sense to be found in Russia And the future role that Russia will play in the sixth post Atlantean epoch rests firmly upon this unconquerable Grail mood in the Russian people Rudolf Steiner Although Eastern Europe has been part of the Christian world for more than a thousand years its spiritual identity remains a mystery This mystery says Sergei Prokofieff can only fully be solved by looking behind external events and seeking spiritual meta historical dimensions of reality In illuminating the maya of outer history Prokofieff reveals the forces that have been at work to hinder the progress of mankind the materialistic Brotherhoods of the West and the occult aspects of both Jesuitism and Bolshevism These adversary groups have created a karma of materialism that the eastern Slavic peoples have taken upon themselves out of their exalted willingness for sacrifice Prokofieff shows how from the earliest times the future conscience of humanity flowed from hidden mystery centres in Hibernia to the eastern Slavic peoples As a result qualities of compassion patience and willingness for sacrifice developed in their souls creating a truly Christian Grail mood Despite

incalculable suffering from the persecutions of the Mongol hordes to the Bolshevik experiment of the last century this quality has become an unconquerable force Will humanity be able to use the present opportunity granted by this sacrifice to fulfil the primary purposes of the present cultural epoch Can the future mysteries of the Holy Grail be fulfilled In this momentous work breathtaking in its scope and detail the author attempts a truly esoteric approach penetrating to the spiritual wellsprings of Eastern Europe in the light of Rudolf Steiner s research

Islam in Relation to the Christ Impulse Andrei Younis,2015-06-01 Islam came into being around AD 600 as a monotheistic Abrahamic religion revealed through the Prophet Muhammad Awareness of Islam in the West has grown dramatically in the twenty first century but there remains much misunderstanding of the interrelationship between Islam and Christianity both their commonalities and differences Andrei Younis elucidates esoteric reasons behind the emergence of Islam from the perspective of Steiner s Spiritual Science He draws on more than thirty years of studying Steiner s works as well as on first hand knowledge gained from living in various Islamic countries and cultures His purpose is to reconcile the origins beliefs and meanings of Islam and Christianity Looking closely at the history and various manifestations of Islam Younis discusses the spiritual impulses behind Islamic beliefs and practices grounding his commentary in both the Koran and the Bible Comprehending this anthroposophic perspective on the emergence of Islam is key to understanding why Islam manifests as it does today Whereas this book will be enlightening and even surprising to most open minded Western readers it is not meant to be a foundation for beliefs or non belief but as a springboard for thought and new avenues of understanding and compassion in a dangerous time

A Road to Sacred Creation Rudolf Steiner,2021-08-03 Rudolf Steiner s perspectives on technology are manifold and prophetic He not only critiqued the technology of his day but foretold new forms of technology that would inevitably arise technologies that would be connected to the makers very attitudes of soul either the good or bad within them in other words their deepest motivations How we as evolving human beings approach technology and its development will be instrumental in determining how ultimately human evolution will turn out Our future as human beings and the future of technology are intimately connected Gary Lamb Illuminating compelling challenging at times staggering in its breadth A Road to Sacred Creation is above all the definitive text for gaining a hold on Rudolf Steiner s nuanced perspectives on technology Charting both an inner and outer course part pilgrimage toward greater perception and knowledge part dramatic unfolding plot line of the future of humans and machines the metaphoric road of the title is exactly where humanity finds itself today though the exact route and destination are still to be determined The map is not yet drawn but here is a beginning Taken together the relevant concepts ideas and insights of Steiner deftly brought into sequence and dialogue as the editor has done in this book reveal how the work to arrive at a more spiritually imbued technological future not only involves all domains and fields of spiritual science and anthroposophic work but has its origins in the very core of our being fundamentally entwined with our moral progress toward freedom and selfless love

The Theosophist ,1893 **Anthroposophy and the Philosophy of Freedom** Sergei

O. Prokofieff, 2009 I asked Rudolf Steiner What will remain of your work thousands of years from now He replied Nothing but The Philosophy of Freedom But everything else is contained in it If one realizes the act of freedom described there one can discover the whole content of Anthroposophy Walter Johannes Stein Some people's path to Anthroposophy leads them directly to Rudolf Steiner's early work Intuitive Thinking as a Spiritual Path A Philosophy of Freedom which becomes the philosophical basis for further exploration Steiner referred to this as a safe approach However the destiny of many leads them directly to Anthroposophy itself perhaps through one of its practical initiatives such as Waldorf education or biodynamics sometimes making it difficult to relate to the cognitive basis of Anthroposophy In this unique study Prokofieff offers a fresh approach to Steiner's crucial book Intuitive Thinking as a Spiritual Path He shows why the book is so important to Anthroposophy as the work in which Steiner lays a foundation for his method of spiritual research In Steiner's own words One who is willing can indeed find the basic principles of Anthroposophy in my Philosophy of Freedom Prokofieff discusses the Christian nature of the anthroposophic means of cognition and how it is integral to freedom and love This in turn reveals the deeply Christian roots of Intuitive Thinking as a Spiritual Path and its importance for modern Christian esoteric work In considering its multifaceted cosmic and human dimension Prokofieff discusses Intuitive Thinking as a Spiritual Path in relation to the mystery of the Resurrection the work of the hierarchies the being Anthroposophia the Fifth Gospel Steiner's path of initiation the Rosicrucian and Michaelic impulses the life between death and rebirth the Foundation Stone the Christian mysteries of karma and the science of the Grail *Buddhism* Alice Leighton Cleather, Basil Woodward Crump, 1928
