

A conceptual illustration of a human brain with glowing neural connections and a hand holding a whiteboard marker. The brain is rendered in a realistic, anatomical style with a warm, golden-brown color palette. It is surrounded by a dense network of glowing, translucent blue and purple lines that represent neural pathways or data connections. The background is a dark, deep blue with scattered, glowing particles and light trails. In the lower-left foreground, a hand is shown holding a white marker, positioned as if about to write on a whiteboard. The overall composition is layered and dynamic, suggesting a connection between biological processes and modern technology or communication.
