## Virgin Planet:

Virgin Planet Poul Anderson, 2011-09-29 He could see from above that this planet was inhabited He emerged from the ship to find himself lassoed and captured by a beautiful redhead mounted on a strange bird like creature That was the first shock the second was to realise that this world of women looked on him as a monster For while the women of Atlantis had waited for the coming of the Men they were certain that this creature who had landed on their planet could not possibly be a man

Science and Insight Roger Bourke White Jr., 2012-05-07 Good stories are about people Good science fiction stories are about science and people So how to you put good science into a story that is about people Thats what this book is about Its about looking for how science changes peoples lives and how to make that change an interesting story about people This is about making Technofictionscience fiction where science matters as much as characters Welcome to a Tales of Technofiction book

The Galactic Crusade: The Complete Trilogy Pablo Andrés Wunderlich Padilla, What started as a battle to defend freedom from a totalitarian regime will evolve into a full fledged crusade to purge the galaxy Argo Herrero will flee from the claws of the totalitarian regime known as Megaschine to join the immigrant army of the TAS He will survive being cannon fodder to become a high ranking officer He will then become the javelin that will lead the purge of a whole galaxy The Galactic Crusade Trilogy will deliver emotional turmoil twists after twists uncertainty jealousy fear heartache and finally a dogged determination to go down fighting to finally outwit the enemy Includes The First Private The Last Commander The Fallen Ronin

**Tipping Point for a Hollow Earth: How Asimov and Sagan Backed My Prophecy of a Polar Hole Shift to Europe** Ruth Leedy Carr, 2025-05-14 An approaching Earth axis shift is the most pressing issue of our time and yet scientists have said almost nothing about it and the public is woefully ignorant You will see here why scientists have had so little to say about this coming disaster and also about the growing instability of hollow Mars The pictures of a lighted polar hole on the night side of Mars lighted by an internal sun will shock you The refusal of NASA to say one word about that night side light in response to a congressman s request is truly mystifying The willingness of all news media to sweep this issue under the rug must be seen as a betrayal of the first order Are we all lambs meekly heading for slaughter Isaac Asimov and Carl Sagan have provided a path that can lead us beyond the dismal future that has been marked out for us We are so lucky that they never gave up on us About the Author Ruth Leedy Carr gained some practice at science reporting while studying journalism at Indiana University Her second major was psychology and sociology also interested her and so the careful reporting of facts was central to almost all her college studies She began researching the cataclysmic prophecies of Edgar Cayce in relation to the hollow Earth theory in 1980 Her books of 1981 and 1983 were republished by Gray Barker of Saucerian Press who was the first publisher of Raymond Bernard s classic The Hollow Earth

She was proclaimed by noted UFO researcher William L Moore to be the world's foremost proponent of the hollow Earth theory

The Passing of Postmodernism Josh Toth, 2010-03-24 The Passing of Postmodernism addresses the increasingly prevalent assumption that a period marked by poststructuralism and metafiction has passed and that literature and film are once again engaging sincerely with issues of ethics and politics In discussions of various twentieth and twenty first century writers directors and theorists from Michel Foucault and Slavoj i ek to Thomas Pynchon and David Lynch Josh Toth demonstrates that a certain utopian spirit persisted within and actually defined the postmodern project Just as modernism was animated by an idealistic belief that it could finally realize the utopia beckoning on the horizon postmodernism was compelled by an equally utopian belief that it could finally reject the possibility of all such illusory ideals Toth argues that this specter of an impossible future is and must remain both possible and impossible a ghostly promise of what is always still to come Josh Toth teaches literature and critical theory at Grant MacEwan College and is coeditor with Neil Brooks of *The Mourning After Attending the Wake of Postmodernism*

**The Last Commander (The Galactic Crusade Trilogy Book 2)** Pablo Andrés Wunderlich Padilla, After ten thousand years of war humanity has obtained its wish crusading the Milky Way My name was Argo Herrero I m now Lynx my code of war Planetary system after planetary system we ve slain all intelligent species once alive in our galaxy All but one the last intelligent species left to be purged by our ranks What will become of us when we ve purged the whole galaxy I don t know but I m afraid of what we ll become of what I ve already become
