---

Many people suffer from veiny hands, a condition in which the hand veins become visibly prominent and seem to swell out near the skin surface, making the hands look old and vulnerable. For most people, bulging hand veins are cosmetic issues as long as their arms and hands are functioning normally. However, for some people, bulging veins could be a warning sign of some bigger problems, especially if they are painful. It is best to have them examined by a doctor to determine if you are suffering from some vein disorder.
