Harding--the Man Joe Mitchell Chapple,1920 **Warren G. Harding** Linda R. Wade,1989 Examines the life and career of the Ohio newspaperman who became the twenty ninth president of the United States **The Presidency of Warren G. Harding** Eugene P. Trani,David L. Wilson,1977 In this volume Eugene P Trani and David L Wilson evaluate the presidency of Warren G Harding by surveying scholarship on the Harding years Harding generally considered one of the weakest American presidents was elected chief executive in 1920 during a time of uncertainty and frustration for many of the American people The authors assess the critics and defenders of Harding in light

of the administration's accomplishments and failures. Both the strengths and weaknesses of the Harding administration came from the people President Harding selected for high office. Charles G. Dawes accomplished much by implementing sound budgetary practices in the federal government for the first time in history. Herbert Hoover became the dominant figure in the Harding administration, using his influence to advance both domestic and foreign policies. And Charles Evans Hughes proved to be an able if conservative secretary of state. Yet the accomplishments of these and other capable men tended to be short term in nature. Trani and Wilson describe the widespread corruption and malfeasance in the Harding administration, pointing out the Harding's erratic judgment of character caused many of his problems as president. His personal habits, philandering, playing poker, and drinking liquor during national prohibition tainted his reputation and appeared to connect him to the activities of his associates. Tragically, Harding sought to avoid controversy even if it meant ignoring real problems or evading justice, and thus failed to provide moral leadership for the nation. Harding and his advisers demonstrated little understanding of the social and economic forces at work in the country and abroad. In the early 1920s, the United States continued the transition from a rural society to an urbanized and industrialized society. Rather than adjusting the government to meet the needs of all segments of an industrialized society, Harding instituted normalcy, an attempt to maintain the values of a rural society rapidly disintegrating under the impact of social and economic change. The few real accomplishments of the Harding administration were buried under scandal, and in the end, Harding must be rated as an ineffective leader at a time when the nation would have been better served by a different, more imaginative approach to government.

Dead Last Phillip G. Payne, 2009. 2009 CHOICE Outstanding Academic Title. If George Washington and Abraham Lincoln are the saints in America's civil religion, then the twenty-ninth president, Warren G. Harding, is our sinner. Prior to the Nixon administration, the Harding scandals were the most infamous of the twentieth century. Harding is consistently judged a failure, ranking dead last among his peers. By examining the public memory of Harding, Phillip G. Payne offers the first significant reinterpretation of his presidency in a generation. Rather than repeating the old stories, Payne examines the contexts and continued meaning of the Harding scandals for various constituencies. Payne explores such topics as Harding's importance as a midwestern small town booster, his rumored black ancestry, the role of various biographers in shaping his early image, the tension between public memory and academic history, and finally his status as an icon of presidential failure in contemporary political debates. Harding was a popular president and was widely mourned when he died in office in 1923, but with his death began the construction of his public memory and his fall from political grace. In *Dead Last*, Payne explores how Harding's name became synonymous with corruption, cronyism, and incompetence, and how it is used to this day as an example of what a president should not be.
