Hill, Amanda D. Webber, Nancy E. C. Priston, 2017-05-01 Conflicts about wildlife are usually portrayed and understood as resulting from the negative impacts of wildlife on human livelihoods or property However a greater depth of analysis reveals that many instances of human wildlife conflict are often better understood as people people conflict wherein there is a clash of values between different human groups Understanding Conflicts About Wildlife unites academics and practitioners from across the globe to develop a holistic view of these interactions It considers the political and social dimensions of human wildlife conflicts alongside effective methodological approaches and will be of value to academics conservationists and policy makers

The Independent William Livingston, 1910 **Why Animals Talk** Arik Kershenbaum, 2024-08-06 Animal communication doesn't need to resemble human language to be full of meaning and nuance Arik Kershenbaum delivers an expert overview of the astonishing discoveries made in the last few decades Frans de Waal From leading zoologist Arik Kershenbaum a delightful and groundbreaking exploration of animal communication and its true meaning Animal communication has forever seemed intelligible We are surrounded by animals and the cacophony of sounds that they make from the chirping of songbirds to the growls of lions on the savanna but we have yet to fully understand why animals communicate the way they do What are they saying This is only part of the mystery To go deeper we must also ask what is motivating them Why Animals Talk is an exhilarating journey through the untamed world of animal communication Following his international bestseller *The Zoologist's Guide to the Galaxy* acclaimed zoologist Arik Kershenbaum draws on extensive original research to reveal how many of the animal kingdom's most seemingly confusing or untranslatable signals are in fact logical and consistent and not that different from our own His fascinating deep dive into this timeless subject overturns decades of conventional wisdom inviting readers to experience for the first time communication through the minds of animals themselves From the majestic howls of wolves and the enchanting chatter of parrots to the melodic clicks of dolphins and the spirited grunts of chimpanzees these often strange expressions are far from mere noise In fact they hold secrets that we are just beginning to decipher It's one of the oldest mysteries that has haunted Homo sapiens for hundreds of thousands of years Are animals talking just like us or are we the only animals on the planet to have our own language
