Stars, Myths & Syllables - In conversation with the fire Janit Gambhir, In Stars Myths Syllables the ancient Rig Veda is unveiled not as a primitive prayer book but as a sophisticated multi layered codex The book presents

a groundbreaking key the deities of the Vedas are precise names for stars and constellations from a prehistoric advanced astronomy Their epic myths narrate the journey of our sun through the galaxy the precession of the equinoxes and the doubling of the sky as Vedic culture expanded southward But the cosmic map is also a map of the mind This work guides the reader through a triune lens the Macrocosm the solar journey the Microcosm the lunar journey of the mind and the Mediating Principle the daily cycle of the soul It demonstrates how to chant the hymns in the prayer of their poetry but as a conscious participation in cosmic order aligning the individual s inner space with the outer universe This is an invitation to listen to the primordial conversation between the fire of the stars and the fire of your own awareness **Resurrection**

Machines Kyle Weyburne,2023-07-13 Pyramids had a specific function and this book endeavours to detail exactly how and when they operated Pharaoh Khufu built what probably stands as the greatest ever construction that humans have produced given the tech constraints of the time the Great pyramid Its accuracy and size are just awe inspiring it was the tallest building in the World until the Cathedrals of Europe arrived on the scene According to ancient historians though Khufu was never buried there and when the Arabs first broke in to the upper chambers in 820AD they found the sarcophagus empty It had been ceremonially sealed without the king inside Are we expected to believe that they built the World s greatest ever construction as a tomb then sealed it forever but without the body of the king Isn t that a little odd The reality is it was meant for something much greater than his tomb What purpose does such a grand resting place for your body really fulfil It appeases the ego of the living king but thereafter it achieves nothing A hole in the ground can preserve the body just as well and in fact it probably has for that s where most believe Khufu was buried in an as yet undiscovered shaft tomb Very unceremonious for someone who had such a magnificent structure built Khufu s father was King Snefru he built the World s two tallest buildings at the time We could reason that one was to be his tomb but then what was the other one for The forgotten story of the pyramids is that they were principally built for the king s Heb Sed festival the most important event in his lifetime should he live long enough to perform it He had to wait 30 years before he could participate in this magical ceremony so he spent 20 odd years building a structure that was vital for its success After 30 years at the helm the king was supposed to be ritually killed Heb Sed enabled him to avoid this dire fate His reign would be extended if he passed the rigorous tests involved in the ceremonies but not only that he would also become a living incarnation of the Sun god This ensured that he would live on for all eternity Pyramids weren t built for vanity instead they were vital mechanisms for achieving these ends and so every king in the Old Kingdom constructed a pyramid to facilitate his immortality This is the third and final book in the series to be read after *Architecture of Ra and Tombs of the Gods* **Annual Report** California.
