The Prague Spring and the Warsaw Pact Invasion of Czechoslovakia in 1968 Günter Bischof,Stefan Karner,Peter Ruggenthaler,2010-01-01 On August 20 1968 tens of thousands of Soviet and East European ground and air forces moved into Czechoslovakia and occupied the country in an attempt to end the Prague Spring reforms and restore an orthodox Communist regime The leader of the Soviet Communist Party Leonid Brezhnev was initially reluctant to use military force and tried to pressure his counterpart in Czechoslovakia Alexander Dubcek to crack down But during the summer of 1968 after several months of careful deliberations the Soviet Politburo finally decide that military force was the only option left A large invading force of Soviet Polish Hungarian and Bulgarian troops received final orders to move into Czechoslovakia within 24 hours they had established complete military control of Czechoslovakia bringing an end to hopes for socialism with a human face Dubcek and most of the other Czechoslovak reformers were temporarily restored to power but their role from late August 1968 through April 1969 was to reverse many of the reforms that had been adopted In April 1969 Dubchek was forced to step down for good bringing a final end to the Prague Spring Soviet leaders justified the invasion of Czechoslovakia

by claiming that the fate of any socialist country is the common affair of all socialist countries and that the Soviet Union had both a right and a sacred duty to defend socialism in Czechoslovakia The invasion caused some divisions within the Communist world but overall the use of large scale force proved remarkably successful in achieving Soviet goals The United States and its NATO allies protested but refrained from direct military action and covert operations to counter the Soviet led incursion into Czechoslovakia The essays of a dozen leading European and American Cold War historians analyze this turning point in the Cold War in light of new documentary evidence from the archives of two dozen countries and explain what happened behind the scenes They also reassess the weak response of the United S

The Pueblo Incident Mitchell B. Lerner,2002 Mitchell Lerner now examines for the first time the details of this crisis and uses the incident as a window through which to better understand the limitations of American foreign policy during the Cold War Drawing on thousands of pages of recently declassified documents from President Lyndon Johnson s administration along with dozens of interviews with those involved Lerner provides the most complete and accurate account of the Pueblo incident to date

The Myth of American Diplomacy Walter L. Hixson,2008 In this major reconceptualization of the history of U S foreign policy Walter Hixson engages with the entire sweep of that history from its Puritan beginnings to the twenty first century s war on terror He contends that a mythical national identity which includes

the notion of American moral superiority and the duty to protect all of humanity has had remarkable continuity through the centuries repeatedly propelling America into war against an endless series of external enemies As this myth has supported violence violence in turn has supported the myth The Myth of American Diplomacy shows the deep connections between American foreign policy and the domestic culture from which it springs Hixson investigates the national narratives that help to explain ethnic cleansing of Indians nineteenth century imperial thrusts in Mexico and the Philippines the two World Wars the Cold War the Iraq War and today s war on terror He examines the discourses within America that have continuously inspired what he calls our pathologically violent foreign policy The presumption that as an exceptionally virtuous nation the United States possesses a special right to exert power only encourages violence Hixson concludes and he suggests some fruitful ways to redirect foreign policy toward a more just and peaceful world [Office of Scientific Intelligence Central Intelligence Agency,2013-11-26](#) The Office of Scientific Intelligence was created in 1949 driven by the concerns of technological surprise in nuclear weapons biological warfare and guided missiles OSI was formed by expanding the Scientific Intelligence Branch of the Office of Reports and Estimates ORE and combining it with the Nuclear Energy Group of the Office of Special Operations OSO It was one of the longest standing offices in the Directorate of Intelligence surviving over 31 years until it was merged with the Office of Weapons Intelligence OWI on 25 February 1980 to form the Office of Scientific and Weapons Research The collection is centered on the three volume history of OSI It includes selected National Intelligence Estimates other intelligence reports drafted by OSI pertinent Studies in Intelligence articles and other early OSI historical documents The collection provides a glimpse of the CIAs overall contributions to science and technology during the Cold War
