**Mental Health** Daniel L. Segal, Sara Honn Qualls, Michael A. Smyer, 2018-01-18 Fully updated and revised this new edition of a highly successful text provides students, clinicians, and academics with a thorough introduction to aging and mental health. The third edition of *Aging and Mental Health* is filled with new updates and features, including the impact of the DSM 5 on diagnosis and treatment of older adults. Like its predecessors, it uses case examples to introduce readers to the field of aging and mental health. It also provides both a synopsis of basic gerontology needed for clinical work with older adults and an analysis of several facets of aging well. Introductory chapters are followed by a series of chapters that describe the major theoretical models used to understand mental health and mental disorders among older adults. Following entries are devoted to the major forms of mental disorders in later life, with a focus on diagnosis, assessment, and treatment issues. Finally, the book focuses on the settings and contexts of professional mental health practice and on emerging policy issues that affect research and practice. This combination of theory and practice helps readers conceptualize mental health problems in later life and negotiate the complex decisions involved with the assessment and treatment of those problems. Features new material on important topics, including positive mental health, hoarding disorder, chronic pain, housing, caregiving, and ethical and legal concerns. Substantially revised and updated throughout, including reference to the DSM 5. Offers chapter-end recommendations of websites for further information. Includes discussion questions and critical thinking questions at the end of each chapter. *Aging and Mental Health*, Third Edition is an ideal text for advanced undergraduate and graduate students in psychology, for service providers in psychology, psychiatry, social work, and counseling, and for clinicians who are experienced mental health service providers but who have not had much experience working specifically with older adults and their families.
