The Apocalypse Today:

Apocalypse Now and Then Catherine Keller, 2004-12-01 In her brilliant wide ranging nuanced study of apocalypse Keller has written a definitive cultural and theological essay In this book she is doing the work of the true intellectual providing learned passionate guidance for living the good life all of us together here and now on our planet Sallie McFague Distinguished Theologian in Residence Vancouver School of Theology A richly evocative exploration of apocalyptic s ambiguous possibilities Inspiring in the fullest personal political and religious senses of the term Kathryn Tanner University of Chicago Divinity School Catherine Keller is a poet among theologians Her writing attains imaginative heights and depths that expose the flatly prosaic character of most theological work One finds oneself lingering over sentences images and tropes hearing them resonate with connections and insights Peter Hodgson Journal of the American Academy of Religion

The Apocalypse Today Thomas Forsyth Torrance, 1960 The message of the Book of Revelation for the 20th century presented by a leading Scottish theologian **Still Here!** Braxton DeGarmo, 2021-10-26 The Apocalypse A code book of future events awaiting deciphering Or a picture book of current events Is there a global tyrant who will be known as the Antichrist Who or what is the Beast The False Prophet Who are the 144 000 What is Babylon and who is the Prostitute who seduces the world Understanding the Book of Revelation need not be daunting You don t have to be theological scholar to understand it After all John wrote it for the common man Yet the key to understanding lies in the Old Testament foreshadowing and types preceding it Nowhere is the phrase The Old Testament is the New Testament concealed and the New Testament is the Old Testament revealed more true And once you understand it and take a look at the world today the more you might recognize that the Apocalypse is now *Apocalypse Today* KONRAD. DIETZFELBINGER, 2025-03-20 Jesus the Christ had opened the blockades the seven seals between the divine and the earthly world through his mystery path Since then a stream of divine forces has been breaking into the earthly world spiritually the apocalyptic horsemen psychically the trumpet angels energetically the harvest angels and physically the angels with the bowls of wrath revealing apokalyptiko all that was previously hidden and calling for a turnaround Those who resist will experience this stream as correction and catastrophe Those who cooperate will experience it as a new possibility of life as the replacement of the old ego human with a new true self The images in the text are timeless and apply to every end time including the present time of crisis The beast from the sea is an image of striving for power The beast from the earth is an image of imitated love of Christ The woman on the scarlet beast is an image of striving for possession and the dragon that inspires them all is an image of nihilistic atheism Today they manifest themselves as fascism authoritarian socialism neoliberal capitalism and scientific materialism The Apocalypse thus proves to be the paradigm of original Christianity for the history of humanity its present state and the salvation or disaster of its future **Hostile Aliens, Hollywood and Today's News** Melvin E. Matthews, 2007 1950s Cold War era monsters meet 21st century terrorists Matthews provides a thoughtful interpretation of sci fi movies that examines

the similarities and differences between the political environment and popular culture of two eras This well researched examination and appreciation of science fiction films includes behind the scenes tales about their production and many quotes from those who produced and starred in the films The book will tantalize not only fans of the science fiction genre but also sociologists film historians and politicians The author draws parallels between the Cold War fears of the 1950s and 60s and the constant terrorism alerts of the September 11th era exploring how the politics and the psychological climate of the times influences and is reflected in this vehicle of popular culture This book is the first of its kind studying the pop culture genre in the wake of the September 11th tragedy The alien invaders of the 1950s signified a Russian invasion of America while other films of the genre such as *Invaders from Mars* depicted aliens utilizing mind control to manipulate humans to commit acts of sabotage signifying Communist enslavement If such a film were made now such invaders could be seen as terrorist masterminds using human slaves to commit terrorist acts Then the 1954 atomic mutation classic is the spiritual ancestor of the 2002 film *Eight Legged Freaks* Finally several 1950s films depicted the end of the world at a time when Americans expected a nuclear war with Russia *Godzilla* the only 1950s era monster to remain a movie star beyond that era can be fashioned to reflect whatever issues dominate the times nuclear war in the 1950s environmental pollution in the 1970s Conceivably a *Godzilla* for the age of terrorism is soon to be released The immediate pre September 11th era witnessed films presenting galactic threats to mankind's existence *Independence Day* *Armageddon* *Deep Impact* while the early 2000s witnessed the popularity of the *Left Behind* Christian films dramatizing the Tribulation period in the Book of Revelation It seems that whatever the era and whatever the challenges and crises confronting America many entertainment themes remain the same reflecting their respective times and the relevant issues Melvin E Matthews Jr is a freelance writer and a horror movie aficionado who has been studying the genre for thirty years In this work he shares his personal correspondence with film and television star Beverly Garland and brings together a wealth of detail about the fun and the challenges of the costumes stunts and special effects as well as the actors and producers thoughts on the meaning behind the stories *The New-Church Review* ,1912 *The Battle for the Etheric Realm* Nick Thomas,2013-05-14 Using an accessible question and answer format this short but focused book tackles themes relating to the etheric life realm What is etheric technology What are the impacts of radioactivity and atomic energy How should we read apocalyptic symptoms in science and society In a fascinating series of discussions Nick Thomas examines a range of concepts including the right and wrong ways to develop an etheric technology spiritual events in the etheric realm how the physical world works into the etheric world and vice versa Rudolf Steiner's Strader machine the nature of truth and lies attacks by the adversaries on forces of vitality humanity's crossing of the threshold to the spiritual world The explanations and ideas in this book help to evoke a living picture of a great struggle between forces of good and evil with the future of humanity and the Earth at stake [World Fiction, Today's Best Stories from All the World](#) ,1922 [Researching Beneath the Surface](#) Simon Clarke,Paul Hoggett,2019-06-06 This book

offers an overview of the rapidly expanding field of Psycho Social research Drawing on aspects of discourse psychology continental philosophy and anthropological and neuro scientific understandings of the emotions psycho social studies has emerged as an embryonic new paradigm in the human sciences Psycho social studies uses psychoanalytic concepts and principles to illuminate core issues within the social sciences The present volume contributes to the development of the new research methodologies in a number of ways It is written largely from the point of view of practitioners who are also researchers Although contributors draw largely upon object relations traditions in psychoanalysis other influences are also present particularly from continental philosophy and the sociology of the emotions It develops an approach to epistemology how we know what we know which is strongly informed by a living approach to psychoanalysis not just as a theory but as a way of being in the world that is as a stance

Apocalypse Now Volume 4 Matthew A. Petti, 2013-02-24 *Apocalypse* translated literally from Greek is a disclosure of knowledge hidden from humanity in an era dominated by falsehood and misconception i e a lifting of the veil or revelation although this sense did not enter English until the 14th century In religious contexts it is usually a disclosure of something hidden In the Revelation of John the last book of the New Testament the revelation which John receives is that of the ultimate victory of good over evil and the end of the present age and that is the primary meaning of the term one that dates to 1175 Today it is commonly and erroneously used in reference to any prophetic End Time scenario or to the end of the world in general The key to the cryptic message in the book of Revelation is in the Metaphysics of Truth THE TRUTH IS ALWAYS TRYING TO REVEAL ITSELF TO US The *Apocalypse Now* Series is a new perspective on Revelation s prophecy and reading the first volume is paramount to understanding this new perspective The *Christ Principle Part II* continues to demonstrate Jesus Christ as a man who DISCOVERED the hidden potentials that exist in every human being Once we understand Jesus Christ as a man who was dedicated to an unknown purpose and destiny we begin to unlock the secrets to his ministry Here we find an alternative view concerning his final temptations and the significance of the Power bestowed upon him during his final quest to understand his purpose Only by understanding his TRUE purpose could he make the CHOICE which would grant immunity to EVERYONE who lived on earth before and after him What did he discover What has modern day Christianity missed in the interpretation of this important message Learn why Christ s body COULD NOT have taken part in the resurrection and why this misconception will present itself in the final conflict of humanity Discover the mysteries of Revelation s prophecy as the secrets continue to unfold in Volume 4 of the *Apocalypse Now* Series
