The Architecture Of Glass Shaping Light:

The Architecture of Glass Francisco Asensio Cervera, 1997 **Rafael Viñoly** Rafael Viñoly, 2002-11-21 Rafael Viñoly became famous as the architect of the stunning Tokyo International Forum 1989 1996 In Japan where land is at a premium and public spaces are rare the Forum with its 27 hectares and unusual design of public space was widely admired Originating in Uruguay Viñoly heads an architectural office with an impressive list of projects in the areas of architecture urban planning and interior design including significant buildings such as the Philadelphia Regional Performing Arts Center which opened recently Princeton University Stadium the New Bronx Supreme Criminal Court Complex In 1969 Viñoly founded his first office in Buenos Aires which was influenced by the Modern Movement but also by the ideas and concepts of the 1960s reflected in the work of Buckminster Fuller Archigram and the Smithsons Due to the political situation he emigrated and opened an office in New York in 1982 Despite the difficulties involved in starting over again in a new country where in the meantime post modernism was prevalent Viñoly stayed true to his style of architecture feeling bound to the ethical considerations of modernism yet constantly questioning it adapting it to changing conditions With offices in New York and Tokyo Rafael Viñoly Architects is now one of the most successful architectural offices worldwide This book documents a large number of Viñoly's most significant buildings and projects It also includes an essay by Joan Ockman one of the best known architecture theoreticians in the USA and texts by Rafael Viñoly on his career which has been marked by the difficult political situation in Argentina and the cultural exchange between S America Europe and the USA **Design-tech** Jason Alread, Thomas Leslie, 2007 Chapters are Introduction Basic Design Parameters Pre Design Circulation Materials Structural Design Buildings Components and Building Services **Translucent Building Skins** Scott Murray, 2013-05-07 Exploring the design of innovative building enclosure systems or skins in contemporary architecture and their precedents in earlier twentieth century modern architecture this book examines the tectonics the history and the influence of translucency as a defining characteristic in architecture Highly illustrated throughout with drawings and full colour photographs the book shows that translucency has been and continues to be a fertile ground for architectural experimentation Each chapter presents a comparative analysis of two primary buildings a recent project paired with a historical precedent highlighting how architects in different eras have realized the distinctive effects of translucency The included buildings span a variety of program types ranging from a single family residence to a factory to a synagogue Whether it is Pierre Chareau's glass lens curtain wall at the Maison de Verre Frank Lloyd Wright's wall of stacked glass tubes at the Johnson Wax Research Tower or Peter Zumthor's use of acid etched glass in a double skin envelope at the Kunsthau Bregenz the included projects each offer an exemplary case study of innovations in materiality and fabrication techniques Today among many contemporary architects there is an engagement with new technologies new material assemblies and new priorities such as sustainability and energy efficiency A resurgent interest in translucency as a defining quality in buildings has been an important part of this recent

dialogue and this book makes essential reading for any architect looking to incorporate aspects of translucency into their buildings

The Architectural Review, 1913

Dreamlands Chrissie Iles, 2016-01-01 A fascinating survey of pioneering work in experimental cinema and art from 1905 to the present day revealing the high stakes and transformative potential of these forms This generously illustrated publication surveys the work of filmmakers and artists who have pushed the material and conceptual boundaries of cinema Over the past century the material optical abstract spatial and tactile properties of film have been tested at a level of experimentation and utopian ambition that is generally unrecognized Whether creating synesthetic or 3 D environments projective or non projective installations generations of leading edge artists have explored how technology transforms experience The essays published here offer an intensive look at the themes of cinematic space formats of the screen animation and CGI the body and the cyborg and the materiality of film Contributors place particular emphasis on the idea of the cinema as a sensorium and on the ways in which it defines the human body both through representation and in relation to the projected image An immersive plate section brings together rarely seen and previously unpublished stills in addition to concept drawings from historic and contemporary films

Light: The Shape of Space Lou Michel, 1995-10-27

Light The Shape of Space Designing with Space and Light Lou Michel Every design professional who touches a space shapes the light and the feeling of that space Architect lighting engineer interior designer lighting or home furnishing manufacturer each contributes an aesthetic layer sometimes yielding unexpected results All too often the best laid plans of one professional are unintentionally subverted by another Removing surprises and guess work from design Lou Michel honored architectural lighting educator has created Light The Shape of Space showing how to design with the effects of light rather than light itself The book is a revolutionary resource for all design professionals and manufacturers of surfacing materials Drawing on over fifteen years experience of research and teaching in the architectural Space and Light Laboratory at The University of Kansas Michel masterfully examines the interrelationship of lighting and the design of architectural space as perceived not in architectural photos or paint chips and fabric swatches but by human vision the gateway to emotional response The book was written for professionals who care about how people feel in the spaces they design and focuses on the humanization of architecture Taking a non stylistic approach to design Michel analyzes architecture from the perspective of how the users see their surroundings as they move through space The reader will learn what pleases and what disturbs people based on how the human visual system responds to color texture pattern and brightness The book features principles of design for the student and professional and is generously supported by illustrations and research Michel also provides a method for evaluating the visual effectiveness of building materials and lighting systems including those that will appear on the market long after this book is dog eared Michel unveils a groundbreaking luminance brightness rating system LBR and a nine zone brightness scale to aid designers in previsualizing the appearance of surfacing materials at every stage of the design process from schematics to development to refinement

Among the topics treated are the interaction of lighting and spatial design color theory for space and light the luminance relationships between free standing objects and the surrounding spatial boundaries against which they are seen the appearance of building materials in color and brightness when modified by light and spatial location lighting spatial connections including the perception of rooms adjacent to the observer lighting and perception of spaces screened by architectural grilles creating lighted space Designing with the effects of light is both an art and a science No other book on the market bridges that gap as successfully as *Light The Shape of Space* **Architecture, Building Materials and Engineering Management** He Tao Hou, Li Tian, 2013-08-08 Selected peer reviewed papers from the 2013 International Conference on Civil Architecture and Building Materials 3rd CEABM 2013 May 24 26 2013 Jinan China [Hungarian R&D Articles](#) ,2003 **The American Architect** ,1912 *American Architect* ,1912 **The Architect** ,1892 **Light** ,1925 **National Courier** ,1915 [The American Architect and Building News](#) ,1881 [The Ohio Architect and Builder](#) ,1914 **American Architect and the Architectural Review** ,1901 [Scientific American](#) ,1881 *Scientific American Supplement* ,1917 **The Architect and Contract Reporter** ,1915
