Harper, Dimitar Kambourov, 2020-11-12 Bulgarian Literature as World Literature examines key aspects and manifestations of 20th and 21st century Bulgarian literature by way of the global literary landscape The first volume to bring together in English the perspectives of prominent writers translators and scholars of Bulgarian literature and culture this long overdue collection identifies correlations between national and world aesthetic ideologies and literary traditions It situates Bulgarian literature within an array of contexts and foregrounds a complex interplay of changing internal and external forces These forces shaped not only the first collaborative efforts at the turn of the 20th century to insert Bulgarian literature into the world's literary repository but also the work of contemporary Bulgarian diaspora authors Mapping histories geographies economies and genetics the contributors assess the magnitudes and directions of such forces in order to articulate how a distinctly national minor literature produced for internal use and
