Universe in a Single Atom , *The Universe in a Single Atom* Dalai Lama Bstan-'dzin-rgya-mtsho XIV., Dalai Lama XIV Bstan-'dzin-rgya-mtsho, 2006 In this rare personal investigation His Holiness the Dalai Lama discusses his vision of science and faith working hand in hand to alleviate human suffering Drawing on a lifetime of scientific study and religious

practice he explores many of the great debates and makes astonishing connections between seemingly disparate topics such as evolution and karma that will change the way we look at our world While he sees science and faith as complementary but different investigative approaches with the same goal of seeking the truth the fact is that the two have often been at the root of human conflict for centuries In THE UNIVERSE IN A SINGLE ATOM the Dalai Lama challenges us to see that the benefits of opening our hearts and minds to the connections between science and faith are far preferable to perpetuating the divisive rhetoric that often surrounds them He believes that such enlightenment is the key to achieving peace within ourselves and throughout the world Now as we face such troubled and uncertain times the need has never been greater for this extraordinary man's compassionate thoughts and wise words

Plato and Paul James William Mendenhall,1886 *Why I Believe* D. James Kennedy,1999-03-06 In this powerful declaration of what Christians believe and why Kennedy explores the foundations of the Christian faith For new believers and seasoned Christians alike this book will strengthen their faith by answering that all consuming question Why A Review of the Theory of Universal Gravitation John E. Atwood,1888 An Essay Toward the Other John Streed,2008-03 An Essay toward the Other considers the three fundamental verities of the human experience the True the Good and the Beautiful and presents three arguments one from the domain of each verity in support of theism and in opposition to materialism The True is the way things are The Good is that which contributes to the happiness of the individual and the group The Beautiful is an indefinable quality that evokes a pleasing and enjoyable inner experience The verities derive from a Divine source and point toward that Divine source thus the opening sentence From the One three from the three One While the verities are part of the human experience their source and their vision transcend our realm They are of God The author accepts the classical view that all human intention however flawed and misguided looks to a final good That final good we call happiness and insofar as our aims and ways are shaped and guided by the True the Good and the Beautiful we are drawn toward happiness
