Academic Libraries and Collaborative Research Services Carrie Forbes, 2022-08-16 Higher education institutions in the United States and across the globe are realizing the importance of enabling internal and external collaborative work e g interdisciplinary research and community partnerships In recent years researchers have documented the benefits of organizational collaboration for research including greater

efficiency effectiveness and enhanced research reputation In addition accreditors foundations business and government agencies have been espousing the value of collaboration for knowledge creation and research and improved organizational functioning As a result of both the external pressures and the known benefits many forms of internal and external research collaborations have begun to emerge in higher education At the heart of this change academic libraries who have long been models for collaborative work are increasingly participating in the research process by providing a widening range of research services beyond traditional reference services Innovative library services in areas such as bibliometric analysis research data management and data repositories are evolving in response to changes in education funding and policies These funding and policy changes have also coincided with technological developments to create opportunities for academic librarians to find new roles within their institutions and the research community There is a growing body of literature examining these changing academic library roles but few volumes have concentrated on how the nature of collaborative work in libraries is helping to reshape institutional research practices Academic Libraries and Collaborative Research Services fills that void by providing academic librarians and administrators with case studies and guidance on how academic libraries are establishing their place in this new collaborative research arena in the areas of emerging liaison roles research data services open access and scholarly publishing and professional development programming The book will also be useful to higher education administrators and institutional research officers looking for information on how to partner with libraries to increase the effectiveness of collaborative research
