Gurdjieff's America Paul Beekman Taylor,2004 Offers information and stories about Gurdjieff setting him within the cultural and social contexts of America between 1924 and 1935 The Occult Colin Wilson,2015-05-17 The acclaimed author of *The Outsider* explores occult ideas practices and figures from Kabbalah to Aleister Crowley in this fascinating history of magic The Washington Post Colin Wilson is widely regarded as one of the world's foremost experts on occultism His classic historical study on the subject is an essential guide to the mind expanding experiences and discoveries made by occultists through the centuries from Heinrich Cornelius Agrippa to Giacomo Casanova Helena Blavatsky Grigori Rasputin and many others More than a chronicle of people and events however Wilson has produced a synthesis of the available material presenting the occult in the light of reason and reason in the light of the mystical and paranormal The result is a wide ranging survey of the subject that provides a comprehensive history of magic an insightful exploration of our latent powers and a revelatory journey of enlightenment This most interesting informative and thought provoking book on the subject I have read Arthur Calder Marshall The Sunday Telegraph **The Utopians** Anna Neima,2021-06-10 Fascinating and richly documented Few books manage to be so informative and so entertaining Sunday Times Santiniketan Sriniketan in India Dartington Hall in England Atarashiki Mura in Japan the Institute for the Harmonious Development of Man in France the Bruderhof in Germany and Trabuco College in America six experimental communities established in the aftermath of the First World War each aiming to change the world Anna Neima's *The Utopians* is an absorbing and vivid account of these collectives and their charismatic leaders and reveals them to be full of eccentric characters outlandish lifestyles and unchecked idealism Dismissed and even mocked in their time yet a century later their influence still resonates in progressive education environmentalism medical research and mindfulness training Without such inspirational experiments in how to live post war society would have been a poorer place Thanks to Neima's rigorous research each chapter offers something new Spectator Neima ranges with impressive confidence across the world Literary Review *The Book of Enlightened Masters* Andrew Rawlinson,1997 This is the definitive and complete book about a phenomenon which did not exist a hundred years ago but is now growing rapidly and dramatically changing Western culture the rise of Western mostly American teachers who fill the role of guru or master A few books have appeared on some narrow aspects of this astounding phenomenon this is the first book to survey the entire field Encyclopedic in its scope *The Book of Enlightened Masters* includes biographical essays on 140 spiritual teachers giving their life stories and an account of their teachings Yet it is also a user friendly introduction with a survey of the teachers and their teachings a historical narrative of how and when the movement developed and an evaluation of the issues raised by it A century ago there were no Western masters no Westerners who were for instance Hindu swamis Zen roshis or Sufi sheikhs Now there are many such teachers with millions of followers Starting

from scratch the West has produced its own spiritual teachers in traditions that until recently were utterly alien And in the last quarter century a number of independent teachers have appeared who belong to no single identifiable tradition The Western masters have not merely transplanted the Eastern spiritual traditions to the West they have transformed these traditions by their distinctively Western approach innovative entrepreneurial and combining elements from previously unconnected Eastern traditions The new teachers are changing Western culture by making available a view of the human condition which is new in the West but very attractive to large and growing numbers of Westerners an approach Dr Rawlinson callsspiritual psychology Spiritual psychology holds that human beings are best understood in terms of consciousness and its modifications that consciousness can be changed by spiritual practice and that there are enlightened masters who have done this and can teach others
