**Unknown Impressionists** Kathleen Adler,1988 An exciting discovery about French impressionism is that it was the achievement not just of a few acclaimed heroes like Monet Renoir Pissarro and C zanne but of a much larger group of painters This is the first book on these Unknown Impressionists whose images of their contemporary life of their cities and landscapes were such an innovation in painting back cover

**Impressionism** John I. Clancy,2003 Defining an artistic era or movement is often a difficult task as one tries to group individualistic expressions and artwork under one broad brush Such is the case with impressionism which culls together the art of a multitude of painters in the mid 19th century including Monet C zanne Renoir Degas and van Gogh Basically impressionism involved the shedding of traditional painting methods The subjects of art were taken from everyday life as opposed to the pages of mythology and history In addition each artist painted to express feelings of the moment instead of hewing to time honoured standards This description of impressionism obviously is quite broad and can apply to a wide array of styles Nonetheless it remains a very important school in the annals of art Any current or budding art aficionado should become familiar with the impressionist movement and its impact on the art world This book presents a sweeping study of this artistic period from its origins to its manifestations in the works of some of art history s most revered painters Following this overview is a substantial and selective bibliography featuring access through author title and subject indexes

*Mapping Impressionist Painting in Transnational Contexts* Emily C. Burns,Alice M. Rudy Price,2021-05-03 This book offers microhistories related to the transnational circulations of impressionism in the late nineteenth and early twentieth centuries The contributors rethink the role of French impressionism in shaping these iterations by placing France within its global and imperialist context and arguing that impressionisms might be framed through the mobility studies concept of constellations of mobility Artists engaging with impressionism in France as in other global contexts relied on responded to appropriated and resisted elements of form and content based on fluid and interconnected political realities and market structures Written by scholars and curators the chapters demand reconsideration of impressionism as a historical construct and the meanings assigned to that term This project frames future discussion in art history cultural studies and global studies on the politics of appropriating impressionism
