The Unlikely Victims Alvin Abram, 2002 **Reconceptualizing Critical Victimology** Dale Spencer, Sandra Walklate, 2016-04-13 Since the 1960s the field of victimology has developed into a variegated discipline with its own theoretical and methodological traditions In the early 1990s two texts were published Towards a Critical Victimology Fattah 1992 and Critical Victimology Mawby and Walklate 1994 that concretized critical victimology as a paradigm within victimology Since then the field has remained conceptually stale and with few a few exceptions there has not been a considerable lacuna of works from a critical perspective Reconceptualizing Critical Victimology Interventions and Possibilities provides a rejoinder to the two aforementioned texts and demonstrate how critical victimology can be reconceptualized where interventions can be made in this victimological paradigm and possibilities for future theorizing and research in this provocative field Reconceptualizing Critical Victimology includes eleven papers on the forms of victimization and issues pertinent to victims written by leading and emerging international scholars in the field of critical victimology It is interdisciplinary in scope and contains contributions from leading and emergent international scholars on victims and victimization Reconceptualizing Critical Victimology serves as a crucible to demonstrate the complexities of and the multitude of factors that interact to complicate victim status the vagaries of victim response and the phenomenology of violence and victimization **Victims of Violence** Peter N. Britain, Germany and the Road to the Holocaust Russell Wallis, 2014-02-21 In the 1930s the British public's emotional response to the atrocities of the Spanish Civil War including the bombing of Guernica shaped the mass politics of the age Similarly alleged German atrocities in World War I against the Belgians and the French had led to campaigns in Britain for donations to support the victims Why then was the British public seemingly less concerned with the treatment of Jews in Hitler's Germany Outlining a hierarchy of compassion Russell Wallis seeks to show how and why the Holocaust met initially with such a muted response in Britain Drawing on primary source material Wallis shows why the Nuremberg laws Kristallnacht and the creation of the Prague Ghetto were reported without great protest Even after the reality of the Final Solution was revealed to the British Parliament by Anthony Eden in 1942 the Holocaust remained a footnote to the war effort Britain Germany and the Road to the Holocaust is a study of the British relationship with Germany in the period and a dissection of British attitudes towards the genocide in Europe *Feeling Hurt in Close Relationships* Anita L. Vangelisti, 2009-07-31 Feeling Hurt in Close Relationships presents a synthesis of cutting edge research and theory on hurt Being hurt is an inevitable part of close relationships What varies from relationship to relationship is not whether partners hurt each other but how their relationship is affected by hurtful episodes Given the potential influence of hurt feelings on people's interpersonal relationships it is not surprising that scholars have begun to study the antecedents processes and

outcomes associated with hurt This collection integrates the various issues addressed by researchers theorists and practitioners who study the causes of hurt feelings the interpersonal events associated with hurt and the ways people respond to hurting and being hurt by others To capture the breadth and depth of the literature in this area the work of scholars from a variety of disciplines including social psychology communication sociology and family studies is highlighted
