Unorthodox Encounters:

Unorthodox Encounters Michael Munn, Uri Geller, 2001 *Unorthodox Kin* Naomi Leite, 2017-02-28 Stirling Prize for Best Book in Psychological Anthropology 2018 Graburn Award for Best Book in Anthropology of Tourism 2018 Douglass Prize for Best Book in the Anthropology of Europe Honorable Mention 2018 National Jewish Book Award Finalist 2017 Unorthodox Kin is a groundbreaking exploration of identity, relatedness, and belonging in a global era. In urban Portugal today hundreds of individuals trace their ancestors to 15th century Jews forcibly converted to Catholicism and many now seek to rejoin the Jewish people as a whole. For the most part however these self-titled Marranos hidden Jews lack any direct experience of Jews or Judaism and Portugal's tiny tightly knit Jewish community offers no clear path of entry. According to Jewish law to be recognized as a Jew one must be born to a Jewish mother or pursue religious conversion. An anathema to those who feel their ancestors' Judaism was cruelly stolen from them. After centuries of familial Catholicism and having been refused inclusion locally how will these self-declared ancestral Jews find belonging among the Jewish family writ large? How that is can people rejected as strangers face-to-face become members of a global imagined community not only rhetorically but experientially. Leite addresses this question through intimate portraits of the lives and experiences of a network of urban Marranos who sought contact with foreign Jewish tourists and outreach workers as a means of gaining educational and moral support in their quest. Exploring mutual imaginations and direct encounters between Marranos, Portuguese Jews, and foreign Jewish visitors. *Unorthodox Kin* deftly tracks how visions of self and kin evolve over time and across social spaces ending in an unexpected path to belonging. In the process the analysis weaves together a diverse set of current anthropological themes from intersubjectivity to international tourism, class structures to the construction of identity, cultural logics of relatedness to transcultural communication. A compelling evocation of how ideas of ancestry shape the present, how feelings of kinship arise among far-flung strangers, and how some find mystical connection in a world said to be disenchanting. *Unorthodox Kin* is a model study for anthropology today. This acclaimed book will appeal to a wide audience interested in anthropology, sociology, and religious studies. Its accessible narrative-driven style makes it especially well suited for introductory and advanced courses in general cultural anthropology, ethnography, theories of identity, and social categorization, and the study of globalization, kinship, tourism, and religion.

Angels in Disguise Jerome Espinosa Baladad, 2012-07-03 While still in his 20s the author discovered the Chocolate Hills in Intramuros, the antique and hispanic walled-in city in Manila, Philippines, where heady events have been taking place for many years. He would find solace and tacit support from many others who also went there. The Walls, as this place is collectively designated, has dutifully witnessed the course of historical events since their erection that started over 4 centuries ago, which include the destruction of large sections of the walled-in city by American and Japanese forces at the close of World War II and those numerous deaths of unnamed civilians. And the author would be drawn to and witness

being with many men similar to him who would take action on customarily unacceptable desires in their hearts the passionate ideas on intimacy in their minds and what their bodies are capable of doing in the very open area in and around the Walls *Lewis Carroll* Lindsay Smith,2015-10-15 Though he is known now primarily as the author of Alice's Adventures in Wonderland in his lifetime Lewis Carroll was interested at least as much in photography as in writing This book offers a close look at Carroll's engagement with the medium both as a creator and a collector of photographs Lindsay Smith takes readers to the glass studio above Carroll's college rooms at Oxford where he created many of his striking portraits and she also follows him into the field on excursions to the theater in London to the seaside at Eastbourne and even to Russia Smith also details Carroll's enthusiastic work as a collector in which role he arranged portrait sittings for photographers whose work he admired Beautifully illustrated with a generous selection of Carroll's work and that of other photographers of the period this book gives fans of Carroll's writing a new way to understand his creative genius **Promoting Equitable**

Classroom Practices in Higher Education Heidi L. Hallman,Valerie Mendoza,2024-05-30 This volume explores DEIB in higher education highlighting the need to support diverse student backgrounds as assets It features contributions from scholars on equitable classroom practices aiming to create inclusive learning environments and humanize students within historically dehumanizing institutions **Materials and Meaning in Architecture** Nathaniel Coleman,2020-02-20

Interweaving architecture philosophy and cultural history *Materials and Meaning in Architecture* develops a rich and multi-dimensional exploration of materials and materiality in an age when architectural practice seems otherwise preoccupied with image and visual representation Arguing that architecture is primarily experienced by the whole body rather than chiefly with the eyes this broad-ranging study shows how the most engaging built works are as tactile as they are sensuous communicating directly with the bodily senses especially touch It explores the theme of material imagination and the power of establishing place identity in an architect's work to consider the enduring expressive possibilities of material use in architecture The book's chapters can be dipped into each individual chapter providing close readings of built works by selected modern masters Scarpa Zumthor Williams and Tsien insights into key texts and theories Ruskin Loos Bachelard or short cultural histories of materials wood brick concrete steel and glass And yet taken together the chapters build to a powerful book-length argument about how meaning accrues to materials through time and about the need to reinsert the bodily experience of materiality into architectural design It is thus also in part a manifesto arguing for architecture to act as a bulwark against the tide of an increasingly depersonalised built environment With insights for a wide range of readers ranging from students through to researchers and professional designers *Materials and Meaning in Architecture* will cause theorists to rethink their assumptions and designers to see new potential for their projects **The Learning Encounter**
