

Unreached People

(not land masses!)

If the Great Commission is about people, why do we represent it with geographic maps?

Geographic maps show our perception of the world. Maps are produced area and the a priority, while geographic size and regions with large populations like the West and Asia are over-represented, and the dense populations of large but large countries like India and China are under-represented. The world map is a cartogram based on 2022 population estimates. Every pixel represents 100,000 people. Shaded by percentage of population.
