Meyer, 1969 **The National Urban Coalition** National Urban Coalition (U.S.), 1978* **The Ville** Greg Donaldson, 2015-06-01 In Brownsville's twenty one housing projects the young cops and the teenagers who stand solemnly on the street corners are bitter and familiar enemies The Ville as the Brownsville East New York section of Brooklyn is called by the locals is one of the most dangerous places on earth a place where homicide is a daily occurrence Now Greg Donaldson a veteran urban reporter and a longtime teacher in Brooklyn's toughest schools evokes this landscape with stunning and frightening accuracy The Ville follows a year in the life of two urban black males from opposite sides of the street Gary Lemite an enthusiastic young Housing police officer charges recklessly into gunfire in pursuit of respect and promotion Sharron Corley a member of a gang called the LoLifes and the star of the Thomas Jefferson High School play is also looking for respect as he tries to survive these streets Brilliantly capturing the firestorm of violence that is destroying a generation waged by teenagers who know at thirty yards the difference between a MAC 10 machine pistol and a 357 Magnum The Ville is the story of our inner cities and the lives of the young men who remain trapped there In the tradition of *There Are No Children Here* *Clockers* and *Random Family* The Ville is a vivid and unforgettable contribution to our understanding of race and violence in America today **Profile of the Urban Fire Problem in the United States** ,

The Making of Urban America Barbara Habenstreit, 1970 **Urban Legends** Peter L'Official, 2020-07-21 A cultural history of the South Bronx that reaches beyond familiar narratives of urban ruin and renaissance beyond the inner city symbol to reveal the place and people obscured by its myths For decades the South Bronx was America's inner city Synonymous with civic neglect crime and metropolitan decay the Bronx became the preeminent symbol used to proclaim the failings of urban places and the communities of color who lived in them Images of its ruins none more infamous than the one broadcast live during the 1977 World Series a building burning near Yankee Stadium proclaimed the failures of urbanism Yet this same South Bronx produced hip hop arguably the most powerful artistic and cultural innovation of the past fifty years Two narratives urban crisis and cultural renaissance have dominated understandings of the Bronx and other urban environments Today as gentrification transforms American cities economically and demographically the twin narratives structure our thinking about urban life A Bronx native Peter L Official draws on literature and the visual arts to recapture the history people and place beyond its myths and legends Both fact and symbol the Bronx was not a decades long funeral pyre nor was hip hop its lone cultural contribution L Official juxtaposes the artist Gordon Matta Clark's carvings of abandoned buildings with the city's trompe l'oeil decals program examines the centrality of the Bronx's infamous Charlotte Street to two

Streetfight Janette Sadik-Khan, Seth Solomonow, 2016 An empowering road map for rethinking reinvigorating and redesigning our cities from a pioneer in the movement for safer more livable streets As New York City's transportation commissioner Janette Sadik Khan managed the seemingly impossible and transformed the streets of one of the world's greatest toughest cities into dynamic spaces safe for pedestrians and bikers Her approach was dramatic and effective Simply painting a part of the street to make it into a plaza or bus lane not only made the street safer but it also lessened congestion and increased foot traffic which improved the bottom line of businesses Real life experience confirmed that if you know how to read the street you can make it function better by not totally reconstructing it but by reallocating the space that's already there Breaking the street into its component parts Streetfight demonstrates with step by step visuals how to rewrite the underlying source code of a street with pointers on how to add protected bike paths improve crosswalk space and provide visual cues to reduce speeding Achieving such a radical overhaul wasn't easy and Streetfight pulls back the curtain on the battles Sadik Khan won to make her approach work She includes examples of how this new way to read the streets has already made its way around the world from pocket parks in Mexico City and Los Angeles to more pedestrian friendly streets in Auckland and Buenos Aires and innovative bike lane designs and plazas in Austin Indianapolis and San Francisco Many are inspired by the changes taking place in New York City and are based on the same techniques Streetfight deconstructs reassembles and reinvents the street inviting readers to see it in ways they never imagined

Urban Nightmares Steve Macek, 2006

On the Make David Grazian, 2008-09-15 David Grazian's riveting tour of downtown Philadelphia and its newly bustling nightlife scene reveals the city as an urban playground where everyone dabbles in games of chance and perpetrates elaborate cons Entertainment in the city has evolved into a professional industry replete with set designers stage directors and method actors whose dazzling illusions tempt even the shrewdest of customers As entertaining and illuminating as the confessional stories it recounts On the Make is a fascinating exposé of the smoke and mirrors employed in the city at night

Local Attachments Alexander Von Hoffman, 1994 Surprisingly writes Alexander von Hoffman this transformation did not destroy local attachments and create an impersonal atomized society Instead these attachments flourished in the fundamental unit of urban society the city neighborhood

along with the public's addiction to technology make room for to a new form of warfare The perils of exposure go unnoticed until camaraderie brings a think tank of unlikely heroes together in hopes of preventing the inevitable How does the reality behind the origin of the attack and prognosis for the future challenge the hopes and dreams of all Urban Workers Eddie Neal,2021-01-08 You'll never look at a subway commute the same way again Impending danger of an unknown origin looms for Boston urban worker bees who thought they were on a morning routine subway commute But events during the journey renders all vulnerable seeking answers and finding none This is a story about how an unavoidable crisis forces each to expose who they really are despite social and cultural differences personal challenges and the nation's deteriorating climate in order to survive The insatiable need to plug in and tune out humankind along with the public's addiction to technology make room for to a new form of warfare The perils of exposure go unnoticed until camaraderie brings a think tank of unlikely heroes together in hopes of preventing the inevitable How does the reality behind the origin of the attack and prognosis for the future challenge the hopes and dreams of all **Sites Unseen** Scott Frickel,James R. Elliott,2018-07-03 Winner of the 2020 Robert E Park Award for Best Book from the Community and Urban Sociology Section of the American Sociological Association From a dive bar in New Orleans to a leafy residential street in Minneapolis many establishments and homes in cities across the nation share a troubling and largely invisible past they were once sites of industrial manufacturers such as plastics factories or machine shops that likely left behind carcinogens and other hazardous industrial byproducts In Sites Unseen sociologists Scott Frickel and James Elliott uncover the hidden histories of these sites to show how they are regularly produced and reincorporated into urban landscapes with limited or no regulatory oversight By revealing this legacy of our industrial past Sites Unseen spotlights how city making has become an ongoing process of social and environmental transformation and risk containment To demonstrate these dynamics Frickel and Elliott investigate four very different cities New Orleans Minneapolis Philadelphia and Portland Oregon Using original data assembled and mapped for thousands of former manufacturers locations dating back to the 1950s they find that more than 90 percent of such sites have now been converted to urban amenities such as parks homes and storefronts with almost no environmental review And because manufacturers tend to open plants on new non industrial lots rather than on lots previously occupied by other manufacturers associated hazards continue to spread relatively unabated As they do residential turnover driven by gentrification and the rising costs of urban living further obscure these sites from residents and regulatory agencies alike Frickel and Elliott show that these hidden processes have serious consequences for city dwellers While minority and working class neighborhoods are still more likely to attract hazardous manufacturers rapid turnover in cities means that whites and middle income groups also face increased risk Since government agencies prioritize managing polluted sites that are highly visible or politically expedient many former manufacturing sites that now have other uses remain invisible To address these oversights the authors advocate creating new municipal databases that identify previously undocumented manufacturing sites as potential

environmental hazards They also suggest that legislation limiting urban sprawl might reduce the flow of hazardous materials beyond certain boundaries A wide ranging synthesis of urban and environmental scholarship Sites Unseen shows that creating sustainable cities requires deep engagement with industrial history as well as with the social and regulatory processes that continue to remake urban areas through time A Volume in the American Sociological Association s Rose Series in Sociology *Generation Priced Out* Randy Shaw,2020 *Generation Priced Out* is a call for action on one of the most talked about issues of our time how skyrocketing rents and home values are pricing out the working and middle class from urban America Telling the stories of tenants developers politicians homeowner groups and housing activists from over a dozen cities impacted by the national housing crisis *Generation Priced Out* criticizes cities for advancing policies that increase economic and racial inequality Shaw also exposes how boomer homeowners restrict millennials access to housing in big cities a generational divide that increasingly dominates city politics Defying conventional wisdom Shaw demonstrates that rising urban unaffordability and neighborhood gentrification are not inevitable He offers proven measures for cities to preserve and expand their working and middle class populations and achieve more equitable and inclusive outcomes *Generation Priced Out* is a must read for anyone concerned about the future of urban America Provided by publisher
