Contemporary Urban Planning John M. Levy,Sonia A. Hirt,Casey J. Dawkins,2024-07-17 Contemporary Urban Planning 12e provides students with an unvarnished and in depth introduction to the historic economic political legal ideological and environmental factors affecting urban planning today Planning is a highly political activity Urban and regional planning decisions often involve large sums of money both public and private with the potential to deliver large benefits to some and losses to others The extensively revised edition of this beloved text tackles the most pressing recent issues in urban development including current demographic technological and lifestyle changes and the possibility for a major turn toward reurbanization urban revitalization after decades of decentralization an expanded consideration of contemporary means of public participation in planning the impact of contemporary social movements on planning and the rising importance of social equity as a major planning objective the affordable housing shortage facing cities in many large U S metropolitan areas making cities more adaptable to micro mobility environmental goals and the role of planners in responding to global climate change current public health challenges and major environmental catastrophes and the effect of varied applications of land use controls and other planning policies in different countries and under different political regimes with case study examples from the UK France Eastern Europe China Asia Africa and Latin America This thoroughly updated new edition also benefits from resources to help classroom instruction both in the text and online These include discussion and multiple choice questions and links for students to online supplemental readings websites and media sources Contemporary Urban Planning is an essential resource for students city planners and all who are concerned with the nature of contemporary urban development problems Visit the Instructor and Student Resources website www.routledge.com/cw/levy *Urban Planning*

Problems, 1974 Contemporary Urban Planning John M. Levy, 2016-08-12 Planning is a highly political activity It is immersed in politics and inseparable from the law Urban and regional planning decisions often involve large sums of money both public and private with the potential to deliver large benefits to some and losses to others Contemporary Urban Planning 11e provides students with an unvarnished and in depth introduction to the historic economic political legal ideological and environmental factors affecting urban planning today and emphasizes the importance of considering who wins and who loses in planning decision making The extensively revised and updated 11th edition of this beloved text tackles the most pressing recent issues in urban development including the major turn toward reurbanization Affordable Housing and the particular housing needs of an aging population new developments in public transportation planning policy and technology standards for green buildings the second Obama administration s environmental policy and energy planning as well as the rapidly growing and critical field of planning for natural catastrophes Contemporary Urban Planning is an essential resource for students city planners and all who are concerned with the nature of contemporary urban development problems Sustainable Intercultural Urbanism at the Service of the African City of Tomorrow Esoh Elamé, 2022-06-03

Most African cities are human settlements that lack the systems needed for effective land use planning In fact the disorganization that prevails has become so complex that the concept of urbanism itself has been called into question This book highlights the need to restore urban planning in African cities through sustainable development and interculturality Furthermore it addresses the balance of power between urban planning and sustainable development and explores the historical and postcolonial aspects of urban planning in African cities A case study focusing on the development of sustainable cities and neighborhoods in the M Zab Valley is also included as well as topics such as urban greening climatic threats and the problem of state agro industrial land transactions which compete with sustainable urban planning Sustainable Intercultural Urbanism at the Service of the African City of Tomorrow is a valuable reference for researchers and practitioners interested in urban issues in African cities These cities in particular sub Saharan cities have long been excluded from any discourse on sustainable cities and urban planning this book places the focus on these cities and acknowledges their varied urban realities The intention is to spark a new debate on sustainable urban planning in African cities based on intercultural sustainable urbanism which is key to thinking about and building ecological intercultural compact intelligent and postcolonial cities Planning Sustainable Cities Un-Habitat, 2016-05-13 Current urban planning systems are not equipped to deal with the major urban challenges of the twenty first century including effects of climate change resource depletion and economic instability plus continued rapid urbanization with its negative consequences such as poverty slums and urban informality These planning systems have also to a large extent failed to meaningfully involve and accommodate the ways of life of communities and other stakeholders in the planning of urban areas thus contributing to the problems of spatial marginalization and exclusion It is clear that urban planning needs to be reconsidered and revitalized for a sustainable urban

future Planning Sustainable Cities reviews the major challenges currently facing cities and towns all over the world the emergence and spread of modern urban planning and the effectiveness of current approaches More importantly it identifies innovative urban planning approaches and practices that are more responsive to current and future challenges of urbanization The Global Report on Human Settlements is the most authoritative and up to date global assessment of human settlements conditions and trends It is an essential reference for researchers academics public authorities and civil society organizations all over the world Preceding issues of the report have addressed such topics as Cities in a Globalizing World The Challenge of Slums Financing Urban Shelter and Enhancing Urban Safety and Security
