

Urban Space

Henry Shaftoe

Urban Space:

Urban Space for Pedestrians Boris Sergeevich Pushkarev, Jeffrey M. Zupan, Regional Plan Association (New York, N.Y.), 1975 This book reflects a broad spectrum of work on transportation and space in urban centers carried out at Regional Plan Association over the past decade

note Re-Framing Urban Space Im Sik Cho, Chye-Kiang Heng, Zdravko Trivic, 2015-10-23 Re framing Urban Space Urban Design for Emerging Hybrid and High Density Conditions rethinks the role and meaning of urban spaces through current trends and challenges in urban development In emerging dense hybrid complex and dynamic urban conditions public urban space is not only a precious and contested commodity but also one of the key vehicles for achieving socially environmentally and economically sustainable urban living Past research has been predominantly focused on familiar models of urban space such as squares plazas streets parks and arcades without consistent and clear rules on what constitutes good urban space let alone what constitutes good urban space in high density context Through an innovative and integrative research framework Re Framing Urban Space guides the assessment planning design and re design of urban spaces at various stages of the decision making process facilitating an understanding of how enduring qualities are expressed and negotiated through design measures in high density urban environments This book explores over 50 best practice case studies of recent urban design projects in high density contexts including Singapore Beijing Tokyo New York and Rotterdam Visually compelling and insightful Re Framing Urban Space provides a comprehensive and accessible means to understand the critical properties that shape new urban spaces illustrating key design components and principles An invaluable guide to the stages of urban design planning policy and decision making this book is essential reading for urban design and planning professionals academics and students interested in public spaces within high density urban development

EVERYDAY URBANISM - EXPERIENCE OF URBAN SPACE FROM WALKERS PERSPECTIVE, AN ALTERNATIVE APPROACH TO URBAN PUBLIC REALM KAVITA KULKARNI ,2021-04-08 **Media and Urban Space** Frank Eckardt, 2008-01-01 Content New information and communication techniques have significant influences on urban life In this book international and interdisciplinary research projects and considerations about the emerging Mediacity are presented Contributions from scientists artists and architects from 14 different countries are analyzing researching and creatively approaching the cultural social political and economical phenomena of the encounter between media and urban space The Editor Frank Eckardt is professor for Sociology of Globalization at the Bauhaus University in Weimar Germany He holds a PhD in Political Science His main field of research is urban studies Since 2004 he is the coordinator of the research project Mediacity

Convivial Urban Spaces Henry Shaftoe, 2012 Despite developments in urban design during the last few decades architects urban planners and designers often continue to produce areas of bland commercially led urban fabric that deliver the basic functional requirements of shelter work and leisure but are socially unsustainable and likely generators of future problems Convivial Urban Spaces demonstrates that successful urban

public spaces are an essential part of a sustainable built environment Without them we are likely to drift into an increasingly private and polarized society with all the problems that would imply Taking a multidisciplinary approach this book draws on research and the literature and theory of environmental psychology and urban design to advance our understanding of what makes effective public spaces Practical guidance is illustrated with case studies from the UK Spain Germany and Italy The result is a practical and clearly presented guide to urban public space for planners architects and students of the urban environment

Urban Geography Michael Pacione,2009 This is the most comprehensive and readable book on urban geography in the array of contemporary literature on the subject

Urban Space Jere Stuart French,1978

Berkeley Square, a Study in Urban Space George Klett,1958

Reclaiming Public Space through Intercultural Dialogue Christa Reicher,2019 The challenges rapid urbanisation encompasses are manifold so are the efforts addressing sustainable and inclusive development frameworks Reclaiming Public Space through Intercultural Dialogue is an intercultural and interdisciplinary initiative which focuses on how social and spatial segregation can be overcome in metropolitan areas Through joint research and teaching activities in the cities of Dortmund and Amman three comprehensive topics emerged urban transformation and the role of public space social and cultural dimensions of cities and nature based planning approaches The book compiles contributions to these topics from researchers practitioners and students which were presented in an international conference held at the German Jordanian University in Madaba Jordan in November 2017

The City as Power Alexander C. Diener,Joshua Hagen,2018-09-18 This interdisciplinary book considers national identity through the lens of urban spaces By bringing together scholars from a range of disciplines The City as Power provides broad comparative perspectives about the critical importance of urban landscapes as forums for creating maintaining and contesting identity and belonging Rather than serving as passive backdrops urban spaces and places are active mediums for defining categories of inclusion and exclusion With an international scope and ready appeal to visual learners the book offers a compelling survey of historical and contemporary efforts to enact state ideals express counter narratives and negotiate global trends in cities The contributors show how successive regimes reshape cityscapes to mirror their respective socio political agendas perspectives on history and assumptions of power Yet they must do so within the legal ethnic religious social economic and cultural geographies inherited from previous regimes Exploring the rich diversity of urban space place and national identity the book compares core elements of identity projects in a range of political cultural and socioeconomic settings By focusing on the built form and urban settings for social movements protest and even organized violence this timely book demonstrates that cities are not simply lived in but also lived through

Privately Owned Public Space Jerold S. Kayden,The New York City Department of City Planning,The Municipal Art Society of New York,2000-11-10 Hailed by the Wall Street Journal as a juicy little time bomb of a book Privately Owned Public Space The New York City Experience examines for the first time New York City's 39 year mixed experience with the production of more than 500 plazas parks and

atriums located on private property yet by law accessible to and usable by the public Until now comprehensive systematic knowledge about this vast collection of public spaces has not existed either for experts or members of the public To remedy this gap Harvard University professor Jerold S Kayden The New York City Department of City Planning and The Municipal Art Society of New York have joined forces to research and write *Privately Owned Public Space The New York City Experience* Through words photographs scaled site plans maps and analysis of newly assembled data they examine history law design and use of the city s privately owned public spaces Each of the more than 500 spaces is individually discussed to provide far reaching comparative information about this unique category of public space In reading this book designers planners lawyers and academics will gain greater understanding about the possibilities and problems inherent in the design management and enforcement of privately owned public space Public officials private owners and civic group representatives will learn more about their roles in ensuring public access and vitality of such spaces Individuals will discover where New York City s public spaces are located and what amenities they offer Everyone will comprehend more completely the contribution that privately owned public space can make toward open and attractive cities in which all individuals have access to a diversity of public places

The Social Life of Small Urban Spaces William H. Whyte (Jr.), 1980 In 1980 William H Whyte published the findings from his revolutionary Street Life Project in *The Social Life of Small Urban Spaces* Both the book and the accompanying film were instantly labeled classics and launched a mini revolution in the planning and study of public spaces They have since become standard texts and appear on syllabi and reading lists in urban planning sociology environmental design and architecture departments around the world

The Cultural Meaning of Urban Space Gary McDonogh, Robert Rotenberg, 1993-04-30 This book presents a cross cultural approach to the study of urban space Essays written by major contributors in contemporary urban studies provide a range of case studies from Asia Latin America North America and Europe to address important questions about space and power processes of change aesthetics and attitudes toward space and social divisions expressed through urban life The essays fall into three interlocking sections conceptual and linguistic approaches to urban space visual and social examinations of world cities and policy examinations of spatial analyses Together with the jointly compiled bibliography this collection of essays is designed to stimulate comparative debate and identify new areas for urban research Essays contrast empty space in Barcelona and Savannah explore the concept of healthy and unhealthy urban environments in the classical writings and in modern day Vienna and develop a model of space for Shanghai from the point of view of privacy The subcultural ethos characterizing Tokyo and the castle as a symbol for the community in Japan are two more essay topics The plaza in Spanish American towns the outdoor spaces in Italy balcony street courtyard and the school in Honduras are sites for socio cultural analyses in three more essays The last group of essays focus on discourses in urban planning especially the responses of people to the growth marketing and decay of residential places African American neighborhoods and waterfront development provide examples for this section These

essays in their theoretical and geographical breadth make significant strides in defining the cultural meaning of urban space. They will be read with interest by city planners, ecologists, and other social scientists involved in finding human solutions to the metropolitan environment.

The New Urban Park Hal Rothman, 2004. From Yellowstone to the Great Smoky Mountains, America's national parks are sprawling tracts of serenity, most of them carved out of public land for recreation and preservation around the turn of the last century. America has changed dramatically since then, and so has its conceptions of what parkland ought to be. In this book, one of our premier environmental historians looks at the new phenomenon of urban parks, focusing on San Francisco's Golden Gate National Recreation Area as a prototype for the twenty-first century. Cobbled together from public and private lands in a politically charged arena, the GGNRA represents a new direction for parks, as it highlights the long-standing tension within the National Park Service between preservation and recreation. Long a center of conservation, the Bay Area was well positioned for such an innovative concept. Writing with insight and wit, Rothman reveals the many complex challenges that local leaders, politicians, and the NPS faced as they attempted to administer sites in this area. He tells how Representative Phillip Burton guided a comprehensive bill through Congress to establish the park, and how he and others expanded the acreage of the GGNRA, redefined its mission to the public, forged an identity for interconnected parks, and struggled against formidable odds to obtain the San Francisco Presidio and convert it into a national park. Engagingly written, *The New Urban Park* offers a balanced examination of grassroots politics and its effect on municipal, state, and federal policy. While most national parks dominate the economies of their regions, GGNRA was from the start tied to the multifaceted needs of its public and political constituents, including neighborhood, ethnic, and labor interests, as well as the usual supporters from the conservation movement. As a national recreation area, GGNRA helped redefine that category in the public mind. By the dawn of the new century, it had already become one of the premier national park areas in terms of visitation. Now, as public lands become increasingly scarce, GGNRA may well represent the future of national parks in America. Rothman shows that this model works, and his book will be an invaluable resource for planning tomorrow's parks.

Urban Space And Representation Maria Balshaw, Liam Kennedy, 2000. An innovative and interdisciplinary collection of new work on the forms and meanings of the modern city in literary, film, and cultural studies.

Urban Space and Cityscapes Christoph Lindner, 2006-04-18. From the verticals of New York, Hong Kong, and Singapore to the sprawls of London, Paris, and Jakarta, this interdisciplinary volume of new writing examines constructions, representations, imaginations, and theorizations of cityscapes in modern and contemporary culture. With specially commissioned essays from the fields of cultural theory, architecture, film, literature, visual art, and urban geography, it offers fresh insight into the increasingly complex relationship between urban space, cultural production, and everyday life. This volume draws on critical urban studies and moves beyond familiar cultural representations of the city by considering urban planning and architecture. Organized under three inter-related themes: image, text, and form, essay topics range from the examination of cyberpunk skylines, pagan urbanism, and the

cinema of urban disaster to the analysis of iconic city landmarks such as the twin towers the London Eye and the Judisches Museum Berlin Covering a diverse range of cities including Berlin Chicago Jakarta Johannesburg Hong Kong London Los Angeles Paris and Venice this fantastic resource for students scholars and researchers alike works expertly at the intersections of visual material and literary culture [The Social Production of Urban Space](#) M. Gottdiener,1994-08-01 In this second edition the author assesses important new theoretical models of urban space and their shortcomings including the global perspective the flexible accumulation school postmodernism the new international division of labor and the growth machine perspective **New Urban Spaces** Neil Brenner,2019 The urban condition is today being radically transformed Urban restructuring is accelerating new urban spaces are being consolidated and new forms of urbanization are crystallizing In **New Urban Spaces** Neil Brenner argues that understanding these mutations of urban life requires not only concrete research but new theories of urbanization To this end Brenner proposes an approach that breaks with inherited conceptions of the urban as a bounded settlement unit the city or the metropolis and explores the multiscalar constitution and periodic rescaling of the capitalist urban fabric Drawing on critical geopolitical economy and spatialized approaches to state theory Brenner offers a paradigmatic account of how rescaling processes are transforming inherited formations of urban space and their variegated consequences for emergent patterns and pathways of urbanization The book also advances an understanding of critical urban theory as radically revisable key urban concepts must be continually reinvented in relation to the relentlessly mutating worlds of urbanization they aspire to illuminate [Re-Framing Urban Space](#) Im Sik Cho,Chye-Kiang Heng,Zdravko Trivic,2015-10-23 Re framing Urban Space Urban Design for Emerging Hybrid and High Density Conditions rethinks the role and meaning of urban spaces through current trends and challenges in urban development In emerging dense hybrid complex and dynamic urban conditions public urban space is not only a precious and contested commodity but also one of the key vehicles for achieving socially environmentally and economically sustainable urban living Past research has been predominantly focused on familiar models of urban space such as squares plazas streets parks and arcades without consistent and clear rules on what constitutes good urban space let alone what constitutes good urban space in high density context Through an innovative and integrative research framework [Re Framing Urban Space](#) guides the assessment planning design and re design of urban spaces at various stages of the decision making process facilitating an understanding of how enduring qualities are expressed and negotiated through design measures in high density urban environments This book explores over 50 best practice case studies of recent urban design projects in high density contexts including Singapore Beijing Tokyo New York and Rotterdam Visually compelling and insightful [Re Framing Urban Space](#) provides a comprehensive and accessible means to understand the critical properties that shape new urban spaces illustrating key design components and principles An invaluable guide to the stages of urban design planning policy and decision making this book is essential reading for urban design and planning professionals academics and students interested in public spaces
