The Amish Landscape:

The Amish Landscape Robert Holman, 1980-01 **The Amish Landscape** Sarah Miller, 2022-03-16 Emma works tirelessly for an English clothing factory but she's barely making ends meet. The only thing that makes her happy is painting. It's her passion but is it vain and does it go against the Ordnung? Blacksmith Jesse King is new to Faith's Creek and is settling in if only the women of the community would stop trying to court him. One day he spots a lovely young woman walking with her hands full of painting supplies. When she drops everything he offers to help and give her a ride home. Jesse is intrigued by Emma's sad eyes and beautiful paintings. He wants to figure out why she's sad and is determined to help. Emma fears she will have to marry. She always dreamed of marrying for love but perhaps it's not in Gott's plan. Can Jesse convince Emma that Gott gifted her with a talent that should be admired? Will Emma admit her feelings for Jesse or allow her lack of self-confidence to get in the way? Find out if Jesse and Emma get a happily ever after in Bestselling Amish Romance Sarah Miller's new release The Rural Landscape John Fraser Hart, 2002-11-04 From the acclaimed landscape historian and geographer a comprehensive handbook to understanding the elements that make up the rural landscape. Selected by Choice Magazine as an Outstanding Academic Title. In this book John Fraser Hart offers a comprehensive handbook to understanding the elements that make up the rural landscape: those regions that lie at or beyond the fringes of modern metropolitan life. Though the last two centuries have seen an inversion in the portion of people living on farms to those in cities, the land still beckons whether traversed in a car or train, scanned from far above or as the locus of our food supply or leisure. The Rural Landscape provides a deceptively simple method for approaching the often complex and variegated shape of the land. Hart divides it into its mineral, vegetable, and animal components and shows how each are interdependent using examples from across Europe and America. Looking at the land forms of southern England, for instance, he comments on the use of hedgerows to divide fields, the mineral or geomorphological features of the land determining where hedgerows will grow in service of the human animal's needs. Hart reveals the impact on the land of human culture and the basic imperative of making a living as well as the evolution of technical skills toward that end as seen in the advance of barbed wire as a function of modern transportation. Hart describes with equal clarity the erosion of land to form river basins and the workings of a coal mine. He charts shifting patterns of crop rotation from the medieval rota of food wheat or rye, feed barley or oats, and fallow to restore the land to modern two-crop cycle of corn and soybeans made possible by fertilizers and pesticides. He comments on traditions of land division; it is almost impossible to find a straight line on a map of Europe and inventories a variety of farm structures from hop yards and oast houses to the use of dikes for irrigation. He identifies the relict features of the landscape from low earthen terraces once used in the southern United States to prevent erosion to old bank buildings that have become taverns and barns turned into human homes. Carrying the story of the rural landscape into our frantic era, he describes the how/where city life meets rural agriculture and plots the effect of recreation and its structures on the

look of the land **The American Landscape** Stephen F. Mills,2013-12-19 American landscapes are some of the best known images in the world we recognize Niagara Falls the Grand Canyon the Manhattan skyline and the streets of San Francisco in a thousand advertisements and TV shows But how have these places come to be as they are and why are some places familiar while others are quite unknown The American Landscape introduces the reader to the changing face of the American environment tracing the way in which the present array of forests and farms parks and superhighways cities and suburbs have come about and how these changes have been thought about painted turned into movie sets etc

Architecture and Landscape of the Pennsylvania Germans, 1720-1920 Sally McMurry,Nancy Van Dolsen,2011-03-08 The phrase Pennsylvania German architecture likely conjures images of either the continental three room house with its huge hearth and five plate stoves or the huge Pennsylvania bank barn with its projecting overshoot These and other trademarks of Pennsylvania German architecture have prompted great interest among a wide audience from tourists and genealogists to architectural historians antiquarians and folklorists Since the nineteenth century scholars have engaged in field measurement and drawing photographic documentation and careful observation resulting in a scholarly conversation about Pennsylvania German building traditions What cultural patterns were being expressed in these buildings How did shifting social technological and economic forces shape architectural changes Since those early forays our understanding has moved well beyond the three room house and the forebay barn In *Architecture and Landscape of the Pennsylvania Germans 1720 1920* eight essays by leading scholars and preservation professionals not only describe important architectural sites but also offer original interpretive insights that will help advance understanding of Pennsylvania German culture and history Pennsylvania Germans lives are traced through their houses barns outbuildings commercial buildings churches and landscapes The essays bring to bear years of field observation as well as engagement with current scholarly perspectives on issues such as the nature of ethnicity the social construction of landscape and recent historiography about the Pennsylvania Germans Dozens of original measured drawings appearing here for the first time in print document important works of Pennsylvania German architecture including the iconic Bertolet barns in Berks County the Martin Brandt farm complex in Cumberland County a nineteenth century Pennsylvania German housemill and urban houses in Lancaster **Crisis**
